

Presensoft's IM Policy Manager for Salesforce.com

IM-CRM chat synchronization for Public and Enterprise Instant Messaging to ensure compliance with regulations such as FFIA, SOX, GLBA, HIPAA, GLBA, SEC and FINRA

Keeping accurate records of all client communication is critical to your business' success, and it brings with it a host of challenges including user participation (ease of use), IT complexities, policy enforcement, regulatory compliance, and eDiscovery requests. Failure to effectively address these issues can have serious repercussions to the ongoing success of your CRM project.

Without the help of **Presensoft's IM Policy Manager for Salesforce.com**, this challenge is virtually impossible to address for the IM conversations taking place over the major IM networks (MSN, AIM, Yahoo, Skype, and Google Talk).

With **Presensoft's IM Policy Manager for Salesforce.com**, another content management concern is put to rest. **Presensoft's IM Policy Manager for Salesforce.com** offers integration between the Presensoft IM Policy Manager and Salesforce.com providing a fully automated process for synchronizing communications with fellow employees, prospects and customers.

Presensoft's IM Policy Manager for Salesforce.com makes capturing accurate data easy!

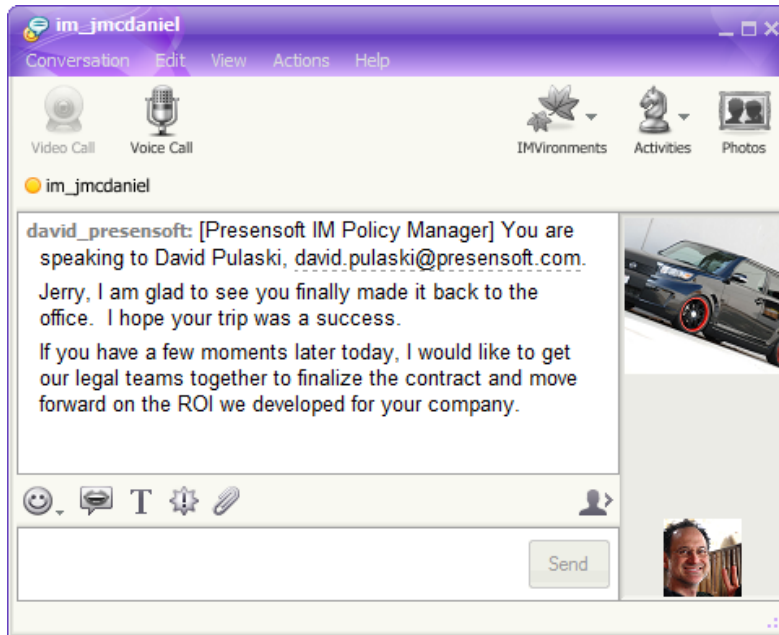

- User participation (ease of use) is seamless and requires no training
- IT complexities are eliminated through a "cloud solution" with no hardware required
- Policy enforcement through Presensoft's web and roles base management console
- Regulatory compliance and eDiscovery requests through Presensoft's IM Policy Manager web console to ensure compliance with regulations such as FFIA, SOX, GLBA, HIPAA, GLBA, SEC and FINRA, as well as safeguard in customer complaints and lawsuits

With **Presensoft's IM Policy Manager for Salesforce.com** you will instantly:

- **Synchronize public and enterprise IM conversation with the Salesforce.com "Call Log" history** for fellow employees, prospects and customers
- **Notify employees of un-registered buddy names** in Salesforce.com contact information for immediate resolution via direct-to-desktop alerts of missing data.
- **Improve employee productivity** with a rapid Return on Instant Messaging (ROIM)TM

* The Presensoft IM Policy Manager is a required software solution ensuring conversations are recorded, even for users with laptops or home offices outside the company gateway.
