

## **Interos is Named AT&T Innovator of the Year 2013**

### **Global Threat Information Center™ for Supply Chain Analysis Solution Offers Greater Visibility in Enterprise Supply Chain Risks, Probabilities**

WASHINGTON, D.C. (October 9, 2013) – Jennifer Bisceglie, President and CEO of Interos Solutions, Inc has been named the Women Impacting Public Policy (WIPP) AT&T Innovator of the Year.

The award, which recognizes the WIPP member who has effectively leveraged technology for innovation and success in business, will be presented to Ms Bisceglie at the organization's annual conference in Washington, D.C., today. Under Ms Bisceglie's leadership, Interos is helping both Federal Government and private sector clients, like Department of Energy and World Wide Technology, leverage global information sources to increase safety and reduce risk in their supply chains via Interos' Global Threat Information Center™, or GTIC, solution. Specific focuses include reduction of counterfeits, tampered with products and malware.

"I am honored to receive this prestigious award from WIPP and AT&T, both leading in their respective industries of women entrepreneurship and technology innovation," Jennifer Bisceglie said in a statement. "This award is a tribute to the outstanding Interos team that includes our numerous partners in providing our analytical capability. It's only by working together, and leveraging the technology available, that we will be able to get ahead of the people trying to do harm"
