ITION2WORK

PROGRAM RESULTS SUMMARY—2013

Everyone Wins in 2013!

2013 proved to be another exciting and record-breaking year for ReEmployAbility's Transition2Work Program! We maintained our high service levels while nearly doubling our previous referral volume. During 2013 alone, the Transition2Work Program saved our clients more than \$11 million in Workers' Compensation costs! At the same time, the program assisted thousands of injured workers by providing faster return to meaningful work, and ultimately to their pre-injury job. Over 4,000 nonprofit partners joined our nationwide network. Volunteering has proven, once again, to be the win-win philosophy ReEmployAbility stands behind.

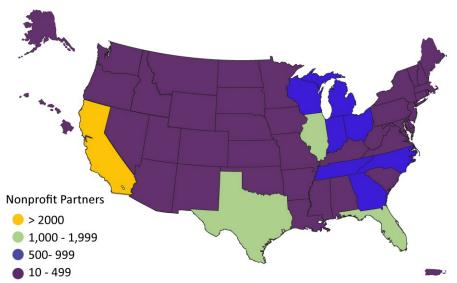

Better Solutions. Faster Results.

Transition2Work Program Results Through 2013

- 98% placement success rate
- \$21.76 million total client savings
- 43 days average placement duration
- 7% of injured workers offered a Transition2Work assignment return to work before the assignment start date
- After a period of noncompliance, 51% of injured workers return to work, reach MMI, or settle
- 2 days average time to placement
- Over \$4,000 average savings claim
- Less than 0.01% re-injury or litigation rate

Growing Nationwide Nonprofit Network.

With more than 20,000 nonprofit partners nationwide, locating an appropriate placement for an injured worker is faster than ever. Our experienced ReEmployAbility Placement Coordinators secure an appropriate placement in an average of 2 business days from the day we receive the referral.

"[ReEmployAbility]... allows us to accommodate injured workers with restrictions in areas where we don't have any appropriate opportunities, and the results have been fantastic!"
