

Hitor Group announces new technologies. (OTCQB) (PINK SHEETS HITR)

Kirkland. June 2, 2014 Hitor Group has added some new technologies to its portfolio, enhancing what the company believes to be some of the best green technologies in the world.

Most of them can be seen on our newly updated website.

Hitor has signed an LOI with Dyno-Rev a new alternate energy green technology company and plans to open a manufacturing plant in the coming months.

Hitor is now in the process of locating distributors in the USA and in Europe. The Company is actively seeking a Europe distribution center and possibly a partner.

The Company is currently negotiating manufacturing and distribution for a new technology that will provide energy on a global scale 24 hours a day 7 days a week.

Hitor Group has been working diligently to find the right financial partners to allow Hitor Group to buy an existing manufacturing plant in Europe.

Hitor Group is an Environmental Solutions company focusing on “Best in class green technologies” ranging from construction, waste management, water purification, energy solutions, recycling and nano technology. The Hitor management team and advisory board brings years of business expertise across a broad range of disciplines that account for over hundreds of millions of value creation for shareholders, business partners and customers. The Hitor team averages 30+ years of experience in developing and marketing disruptive technologies that include communications, transportation, construction, recycling and green technologies. The team has extensive transportation, construction and development related experience as well as international businesses development and negotiating with foreign governments.
