**Miles Marin Never Saw The Trouble Coming
Now He's In So Deep There's Virtually No Way Out**

"Tightly plotted and highly entertaining..."

-Robert Stanek, Bestselling Author

Adventure junkie Miles Marin had hiked the Great Wall of China, celebrated New Year's at the summit of Mt. Kilimanjaro, explored Inca ruins deep in the South American rain forest... But he never expected his most dangerous adventure would happen in sunny, safe Sarasota, Florida.

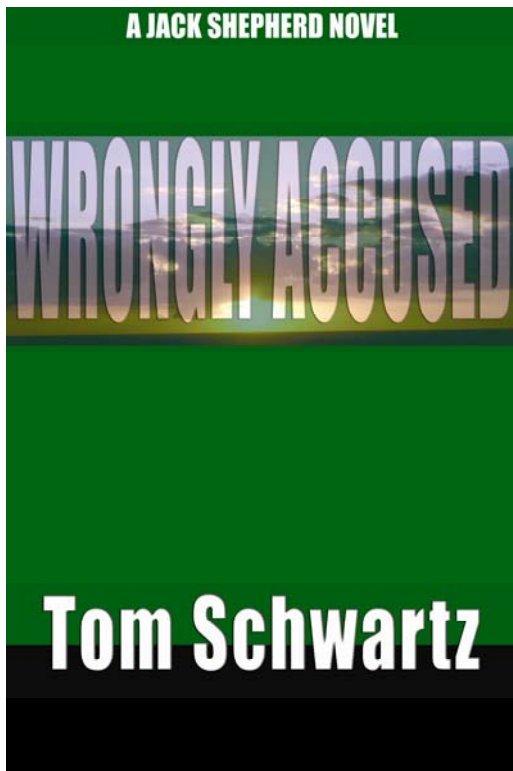

Miles, a salesman for Mercedes in Sarasota, has an expensively dressed, striking blond woman walk into the showroom and offer to buy the most expensive car on the Mercedes lot—if—Miles will do one favor for her. That favor turns out to be the opening gambit in the kidnapping of Jens Beck, a high-ranking Mercedes marketing executive. Since Miles is the only person who has seen the blond woman's face, FBI agents Casper and Chance want his help, as does Wernher Lohse, the former Bundeswehr special ops officer sent by Mercedes to secure Beck's release.

With the FBI and Lohse joining forces, you'd think the kidnap victim would be rescued quickly. But from the beginning, when the \$50-million ransom demand is discovered in the abandoned Mercedes, this kidnapping is different. The kidnapers seem to be a step ahead of Lohse and the FBI, as if they've anticipated their every move. As the high-stakes game plays out and the chase moves from the beaches of Sarasota to those of Puerto Vallarta, Mexico, things begin to go horribly wrong for both sides.

Even adventure junkie Miles wasn't expecting a ride this wild.

"A good start to a thriller trilogy that takes the reader to some interesting places."

-Robert Stanek, Bestselling Author

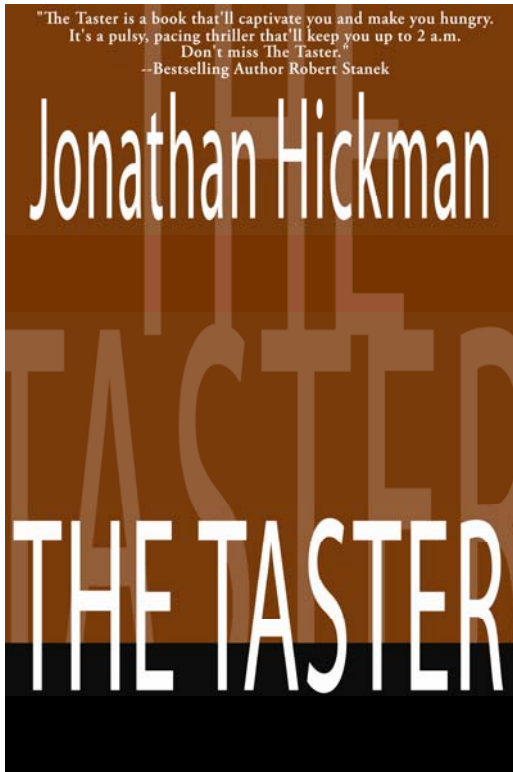

When two New Jersey policemen mistake author Jack Shepherd for an underworld drug dealer as he drives home from a meeting with his publisher, they chase his truck on the New Jersey Turnpike and use an unauthorized procedure to stop him. The actions of the police backfire when they realize that Jack is not the notorious drug dealer, but by then it's too late to undo the damage and the only way out for the police is to suppress the evidence and fabricate a story that implicates Jack based on his drunkenness.

Jack's attorney advises him to plead guilty to a lesser offense, which would result in a short stay at a minimum-security facility. The sentencing judge accepted the plea bargain, but uses Jack's case as an example and gives him to the maximum sentence.

While in prison, a hardened criminal named Salvador Salinis thinks Jack is an acquaintance and yells the name "Parodi" before attacking him. This attack is the first clue as to whom the police thought he was and the first clue to Jack's freedom.

Wrongly Accused is Tom Schwartz's debut novel for adults. Tom Schwartz was born in December 1930, in Brooklyn, NY where he attended Public Schools including the Manhattan H S of Aviation Trades. In 1951 he enlisted in the Navy and won a "Fleet" appointment to the Naval Academy in Annapolis, Maryland. Upon graduation, he served in the US Air Force where he spent most of his 27 years in the Research and Development area.

After retiring from the Air Force as a Lt. Col., he worked for Computer Sciences Corporation (CSC) as a Program Manager. He now resides in Melbourne, Florida, and enjoys writing nature stories for children. He is a guest speaker at the elementary schools in central Florida, and has been to over 60 schools speaking to 2nd through 5th grade students (about 18,000 of them, so far). The book, How Mother Nature Flowered the Fields, is included in the elementary school's Renaissance Learning Accelerated Reader Program.

Here Comes The Fat Man

"The Taster is a book that'll captivate you and make you hungry. It's a pulsy, pacing thriller that'll keep you up to 2 a.m. Don't miss The Taster."

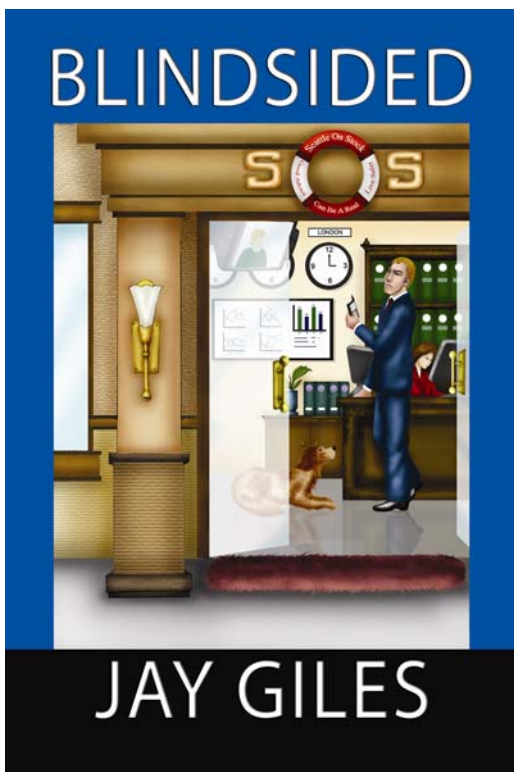

-Bestselling Author Robert Stanek

In a world of corruption and wickedness, a world where your next meal may be your last, there's only one man who can taste the difference between what you can eat and what will kill you. He's the super-sized, super-talented FBI agent whose specialty is food security. He's the bona fide card-carrying superhero unlike any other. He's the fat man with the super taste buds and the super immunity. He's Timothy Blanchard, the titular hero of *The Taster*. *The Taster* starts with a meal and a murder. A whirlwind of meals and murders follow. It's enough to make you ravenously hungry and keep you furiously turning pages.

After attending law school at the University of Memphis, Jonathan returned home to Newnan, Georgia, where he practiced law privately for eight years. In 1998, he joined the movie and entertainment related web magazine Entertainment Insiders later becoming the company President and Editor. While teaching business law for 3 years at a local University, he constantly encouraged his students to read and often used classic works of literature in classroom examples. He now serves as the Public Defender for the State Court of Coweta County. Jonathan lives in Georgia with his wife and daughter. While Jonathan was writing *The Taster*, his daughter would rather chew on *Tarzan* than listen to her father read it to her.

While vacationing and eating a large amount of disgustingly delicious Mexican fast food, Jonathan typed out the first chapter of *The Taster*. He knew that what he was eating at the time was no damn good for him and agonized over the long-term consequences. But what if there were no consequences, he asked himself, what if he could eat anything and not worry about his health? Thus, *The Taster* was born out of the fires of hot sauce and one tasty gordita.

DON'T MISS THESE OTHER EXCITING THRILLERS FROM REAGENT PRESS

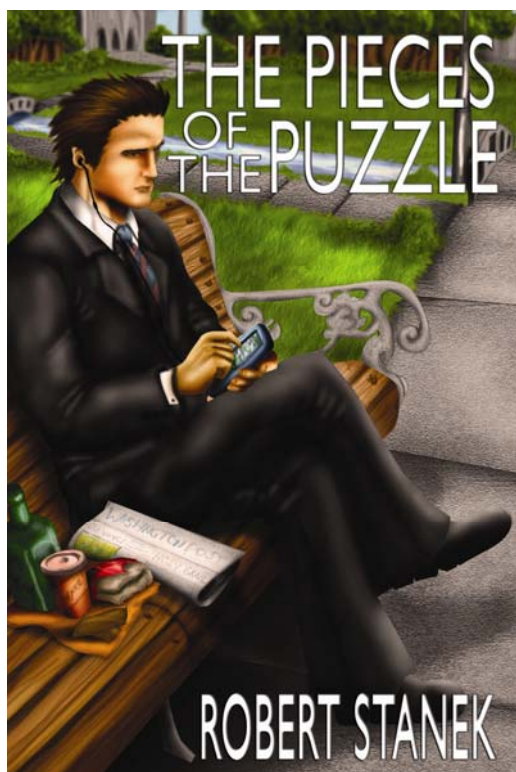

The secrets Joe Jesso took to his grave could get Matt Seattle killed.

For Matt, a Sarasota stockbroker, the elderly Jesso had been a client and close friend. But after Joe's unexpected death, Matt discovers the money his friend invested with him was embezzled from a drug cartel.

Now the cartel is threatening him to get the money. Joe's scheming wife of a week, fifty years his junior, and her shyster lawyer are demanding it, too. Matt, with the help of private investigator Tory Knight, must figure how to get the two groups at each other's throats instead of his.

Matt and Tory come up with an outrageous idea that just might work. But as the cartel ratchets up the pressure—arson, kidnapping, torture—will it be enough to keep Matt alive?

Masterfully plotted, *Blindsided* delivers twists, turns, and thrills, right to the very last page.

Scott Madison Evers is the son-in-law of the Chairman of the National Security Council. His wife is pregnant with their first child. While in Munich conducting a rendition of a known terrorist, Scott's cover is blown. Before Scott can get away, his entire operations team is wiped out, and he alone escapes into the night.

When he returns to the States, he finds himself a wanted man, and must go on the run from the agency that is trying to convict him of high treason. Now Scott conducts secret surveillance of those he thinks can give him a way out while slowly getting drawn into a web of deceit. Ruthlessly, the other side draws his wife and unborn child into the struggle. Scott's only hope to save them and himself is to do the unthinkable, and that is what he sets out to do.
