● **Green = countries with completed projects**

● **Grey = untapped potential**
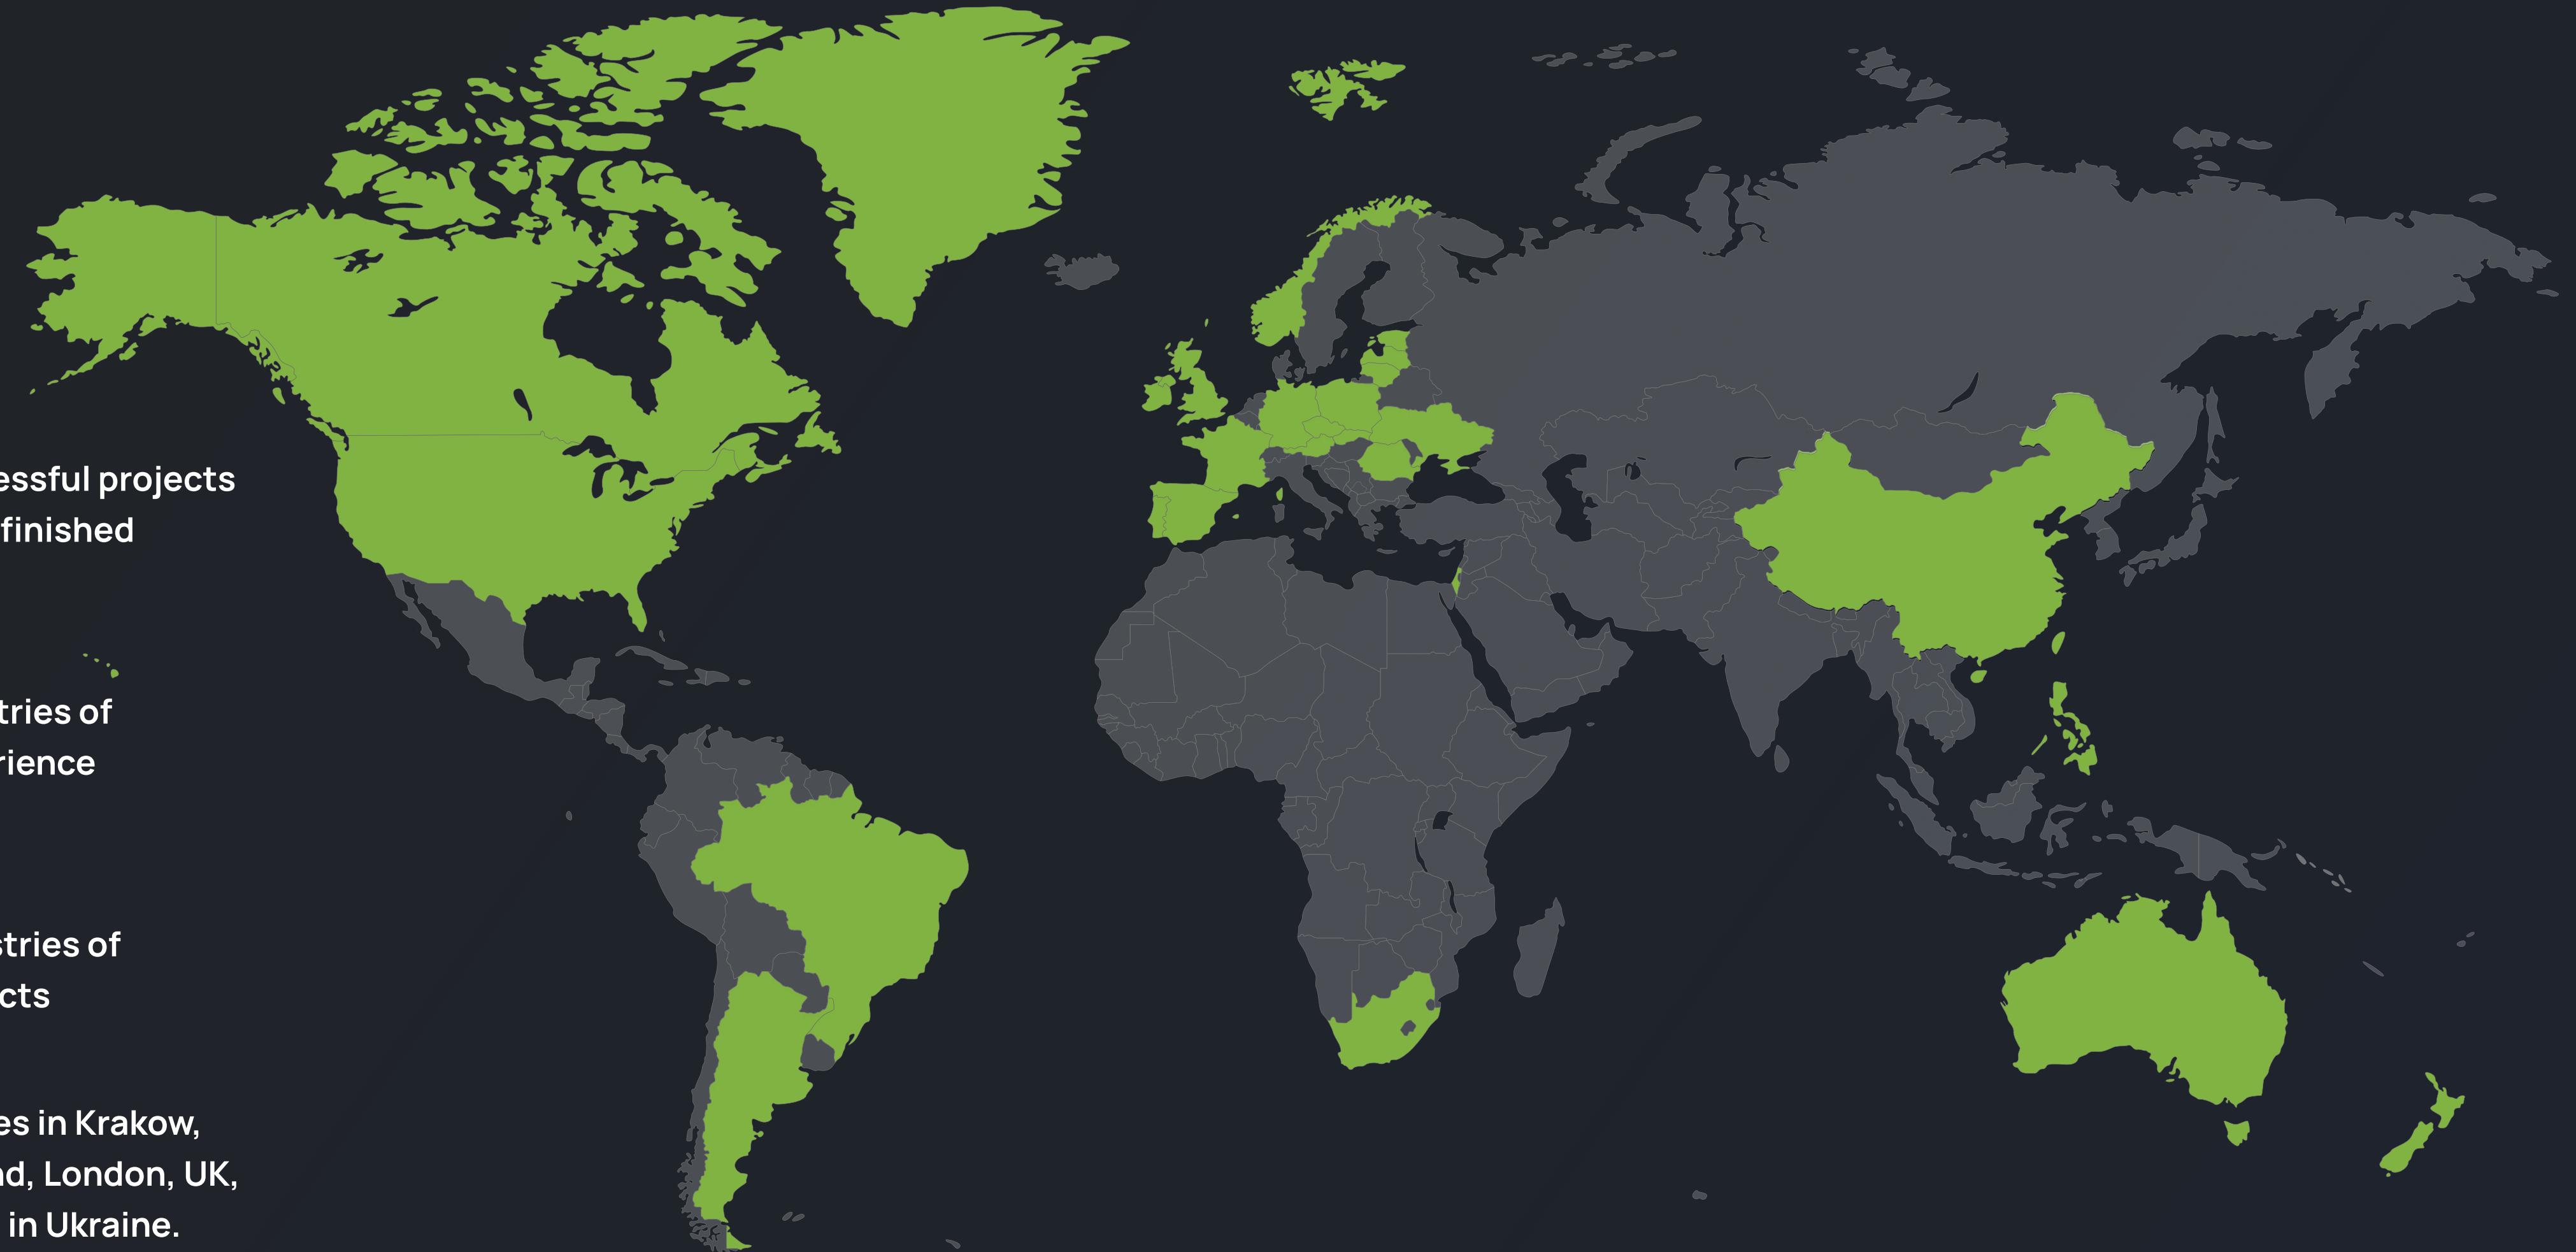

OUR VALUES

Empathy

Our team sees every project as an opportunity to influence our clients' lives and businesses deeply.

People

We foster teamwork and collaboration, respecting our clients' and partners' trust in us with their visions and goals.

Transparency

We prioritize open communication, honesty, and clarity for transparent project management throughout our partnership.

Expertise

We're committed to expertise, and staying updated on the latest JavaScript technologies and best practices.

Passion for JavaScript

Our devoted developers understand the impact of each line of code on user experiences and business success.

Thrive

With creativity and cutting-edge tech, we lead in JavaScript, refining skills for innovative client solutions.
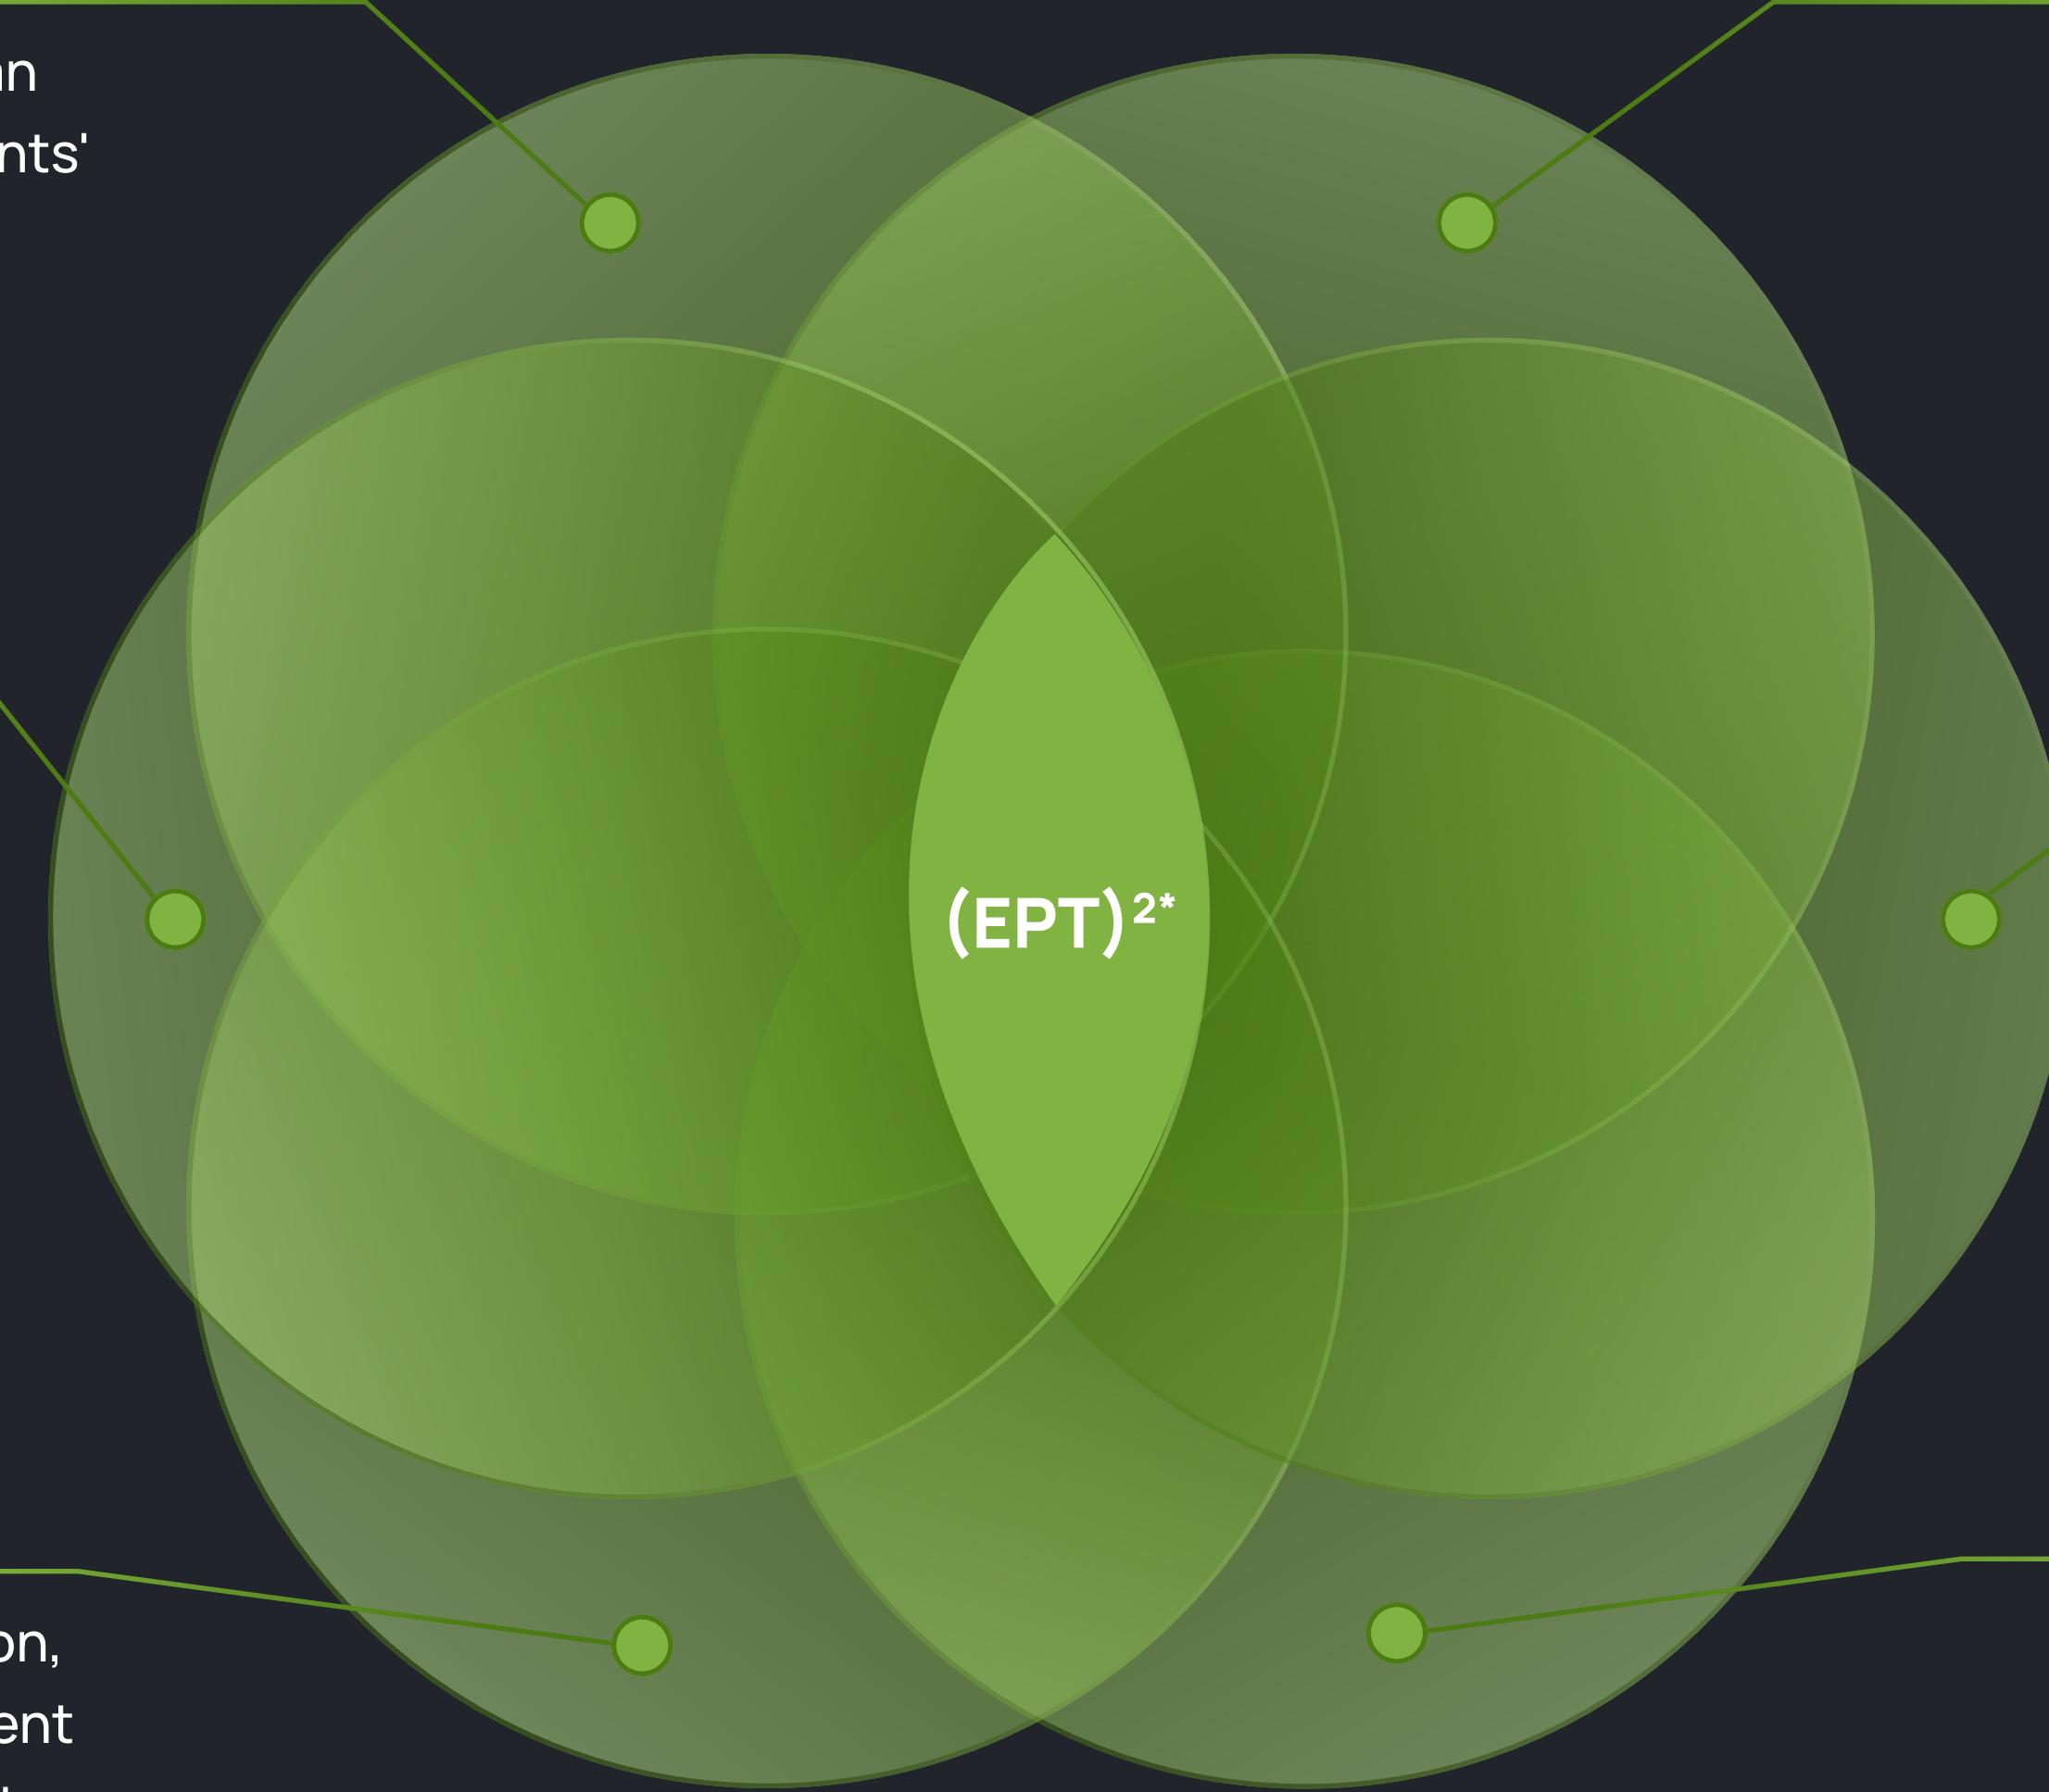

$(EPT)^{2*}$

*Our value formula, known as $(EPT)^2$, emphasizes the importance of Expertise and Empathy (2 E), People and Passion (2 P), and Transparency and Thrive (2 T).

Our team, your brand

A dedicated development team working as an extension of your brand.

Full confidentiality – your clients see only your company.

Marketing Partnership

Grow Together Through Marketing

Co-branded social media posts – we promote you, and you promote us.

Audience sharing – mutual reposts, mentions, and recommendations.

What Our Partners Say:

**Nazarkevych Volodymyr,
CEO Kevych Solutions**

Working with Incode Group is like having a cool team of friends who are also top specialists!

We were looking for a reliable technical partner, and we found much more - a partner with whom we can implement ideas.

**Polina Sokolenko,
Head of Engineering at Usense**

A partnership that works. Incode group are not just partners, but people with whom it is easy and productive to build great things. We can't imagine our projects without this synergy!

**Valentin Shtefan,
CEO ArtiLab**

Incode Group has been a solid partner for us. They're straightforward, reliable, and actually care about our projects. When we hit roadblocks, they're quick to help find solutions. It's good to work with people who understand what real collaboration means.

**Fedir Klymenko,
Co-founder Pecode**

For us, cooperation with Incode group means a sincere atmosphere and incredible support. We are sincerely grateful for the exchange of experience and cooperation. We are convinced that there are still many promising opportunities for development ahead.

**Artem Bilousov,
CEO Natife**

We've found the perfect partner — one that not only shares our vision but amplifies our potential. Having a strong, reliable technical ally by our side means we can push boundaries, innovate, and reach new heights together. The road ahead is filled with even greater opportunities, and we're excited to keep building the future side by side!

**Roman Van,
BizDev Director Arounda**

Collaborating with the Incode Group has been a truly rewarding experience. Their proactive approach and dedication to delivering high-quality solutions have consistently exceeded our expectations. We highly appreciate our collaboration and look forward to achieving even greater milestones together!

We're open to partnership

Let's combine our expertise and grow together — we'd love to explore how Incode Group Solutions can bring value to your network.
