GPS NAVIGATION Commercial Drivers

Teletype offers the first touch screen portable GPS specifically designed for all types of commercial truck drivers. The systems can also be used by RV'ers, Coach and Motor Home drivers.

Benefits

- **Easy to Use** - based on familiar portable navigation software, and yet the commercial driver can rely on the routing as it takes into account commercial truck restrictions such as bridge heights and clearances, load limits, one-way road designations, left-hand and dangerous turn restrictions, and allowances. For example, a typical set of restrictions for a semi-trailer could be entered as 13'6" height, 80,000 lb weight, and 53' length.
- **Save Time and Money** - avoid costly tickets, avoid tolls, navigate unfamiliar territory efficiently, saving time, and gas
- **Hazmat Routing** - offers 9 levels of Hazmat routing if desired
- **Ready to Use** - pre-installed U.S. and Canada maps let you use the system right out of the box
- **Easy Updating** - maps and program installed to Secure Digital card allowing for convenient update
- **Voice Directions** - pronounces street names in English, Spanish or French
Example: In 2 miles, take Exit 23, to I-95 North
- **Touch Screen GPS** - 2D and 3D views with U.S. and Canada maps pre-installed
- **MP3 & Video Player** - for relaxation during loading or rest time
- **12+ Million Points of Interest Preloaded** - including truck stops, weigh stations, and more
- **Waypoints** - add unlimited number of your own points for future reference
- **Flexible precise configuration** - enter any size height or weight to accommodate any size load or vehicle including oversize and overweight vehicles.
- **Fast automatic rerouting** - Never get lost, if you miss a turn, the GPS will recalculate the route for you.
