ZaKoPhone™

Vienna, 16th of January 2009. ZaKoTel GmbH starts with the new Web service **http://www.zakophone.com**.

ZaKoPhone™, a Web based phone that works inside the browser without installation.

Calling you neighbor or the uncle in Africa was never that cheap and easy, ZaKoPhone is a free Web Service that uses the newest technology to bring high-quality voice communication to people all over the world without the needs of software installation.

„People do not want to download and install software to their PC's only for a phone call, we built this service for all people who only want to open the web browser for a phone call, simple calling. The payment methods take care of all people who do not own a credit card, so everybody can use this service", says Alfred Kohl CEO of ZaKoTel GmbH.

ZaKoPhone™ use the newest technology for high-quality voice communications. All services are developed by ZaKoTel GmbH, this makes it easy to add new features, like IM functionality, in the upcoming weeks. With the implementation as web service, users do not need to download, upgrade and/or install new software, after the start of the phone application every user has the latest version of the application available.

ZaKoPhone™ offers different ways for the user to load money to their account, not everyone has a credit card or can send money from his bank account all around the world, ZaKoPhone supports Western Union (NYSE: WU) and Moneygram (NYSE: MGI) for this reason. Related service providers like eBay Inc. (NASDAQ: EBAY), offering telephony services through its wholly owned subsidiary, Skype Inc., and charge substantially higher fees per minute plus a connection fee, for example, the user saves Euro 0,26 on a two minute call to Germany Mobile by using ZaKoPhone.

In first quarter 2009 ZaKoPhone™ will add IM functionality like user2user calls, messenger, Video telephony, inbound calling and many more to ZaKoPhone.

ZaKoPhone™ is a trademark of ZaKoTel Telekommunikations GmbH. All other companies and product names may be trademarks of the respective companies with which they are associated.
