ecosignworks  
1539A Third Avenue  
Walnut Creek, CA 94597

**EcoSignWorks is proud to now provide earth friendly, biodegradable signs for both indoor and outdoor branding needs in Contra Costa County and the greater Bay Area.**

**BIOBANNER**

lasts as long as conventional banner material, but also breaks down within 1 to 5 years in anaerobic (no air) landfill conditions.

**DURAPLAST BIODEGRADABLE FOAMBOARD**

made entirely from recycled paper waste, is water resistant, and will last months outdoors without water encroachment, also bio-degrading within 1 to 5 years depending on disposal conditions.

**BIOSTYRENE**

used in exterior and interior sign applications, is typically for real estate signage, menu boards, and breaks down within 1 to 5 years in anaerobic (no air) landfill conditions.

**Special Event Displays**

**Outdoor Branding**

**Interior Displays**

**Moving Displays**

**About EcoSignWorks**

Richard Abbot founded Signworks in Walnut Creek in 1980. Like many other sign companies of the time, Signworks was a solo sign painting operation. But soon, Richard's masterly sign painting brought in numerous and steadily larger clients. The company subsequently grew to include employees and managers - and computerized in 1989. Computerization brought even more creativity and production to Signworks, and throughout the 1990's the company continued to add high profile corporate and event clients, while steadily growing and finally moving to its current location on 3rd Ave in Walnut Creek. In 2000, Signworks became a part of the team that built and opened PacBell Park in San Francisco for the Giants, a career highlight, and a continuing client to the present. Today, Abbot and company are challenging standards by releasing environmentally conscious sign products, pursuing their passion for sustainable business, as well as meeting a growing social awareness. Signworks is changing its name to EcoSignWorks in order to represent this new commitment to sustainability and environmental responsibility.

**Providing over 30 years of signs and displays in the Bay Area**
