## MDS Medical Software Named Fastest Growing Arizona Health Company on the 2009 Inc. 5000 List

Phoenix-based medical software and technology integrator MDS Medical Software has been named the fastest growing Arizona-based company in the health category on the 2009 Inc. 5000 list. In addition, MDS was named the 2000th fastest growing company nationwide.

PHOENIX, AZ – September 14, 2009 – Inc. 5000 has named MDS Medical Software the number one fastest growing Arizona-based company in the health category and the 2000th fastest growing company nationwide. The 2009 Inc. 5000 is a list of the fastest growing private companies in the United States. MDS, an electronic medical records software and technology integrator for outpatient physician practices nationwide, attributes its success to a company philosophy of hands-on sales, consultative implementation, and responsive support.

"We are honored for MDS Medical Software to be named on the 2009 Inc. 5000 list of the fastest growing private companies in America. We believe that this recognition is a testament to the superior value we deliver to physicians by delivering a top ranked electronic medical records software system with a consultative service model, enabling physician practices to achieve a much faster return on investment than is typical for our industry," says William Schroeder, CEO of MDS Medical Software.

Nationwide, physician practices in more than 30 specialties rely on MDS to advance the use of medical technologies that facilitate efficiency improvements, increased profitability and delivery of safer patient care. The company's proprietary electronic medical record implementation model reduces downtime and lost productivity, accelerating return on investment for practices large and small.

Just as the best physicians treat the whole patient and not just symptoms, MDS considers the whole practice -- from administrative processes, billing and collections, clinical workflow and marketing -- to achieve outstanding results and rapid return on investment for physicians. By focusing on increasing efficiency, MDS helps physicians deliver safer, faster and more profitable patient care in an age of declining reimbursements.

MDS Medical's core product is the award-winning, CCHIT<sup>™</sup> Certified Greenway PrimeSuite<sup>™</sup> system. PrimeSuite an integrated electronic medical records, patient scheduling, and medical billing software system from Greenway Medical Technologies; PrimeSuite was ranked Best in KLAS in 3 categories in the annual 2008 Top 20 Best in KLAS Awards report.
