

**Safe Haven Maritime Pte Ltd**

## Introduction

Safe Haven Maritime Pte Ltd has a large fully licensed dedicated short-, medium-, and long-term anchorage in Batam located conveniently close to Singapore.

The anchorage is located on the Equator with ideal weather conditions and water depths for anchoring tonnage of any type and size.

Inspected and approved by member of IACS (International Association of Classification Societies).

Excellent holding ground.

Safe distance between anchored vessels.

Security and emergency response.

Complete agency and chandlery services along with launch transportation.

Competitive prices (comparatively cheaper than OPL Singapore)

No restrictions on reduced manning below minimum safe manning (reduced manning cost as well as possible return of insurance calls).

## Conditions

The environmental conditions at the anchorage area are ideal for vessels on single anchor.

There are no adverse weather effects. Typhoons which affect most other areas in Asia are non-existent due to the anchorage's close proximity to the Equator.

Wave height effects is minimal with waves seldom exceeding 1.0-1.5 meters.

There are no swells of any noticeable effect at the anchorage.

The anchorage is easily accessible with pilot which is available for approach and anchoring operations.

The tide condition is diurnal ranging within approximately 3.2 meters.

The effects of the current as caused by tide changes can reach about 2.3 knots with direction running SSE/NNW.

The anchorage is easily accessible with pilot which is available for approach and anchoring operations.

**Water depth: 28-32 meters.**

**Holding ground: Excellent with firm mud (based on bottom samples and experience)**

**Security**

We provide onboard security with four personnel on guard at all times (24 hours). All our personnel are mariners recruited locally minimizing any potential local security threat. Our onboard personnel have fully certified fire fighting certificates.

Our Emergency Response Base is located within line of sight of the presently laid-up vessels and is manned round the clock with a Rapid Response Team. The present response time is 10 minutes.

We have close cooperation with the local Coastguard, Navy, and Marine Police as well as the national Navy, Police and intelligence services who all are available to us.

Our Emergency Response Plans (ERP) covers illegal boarding with strict security and response procedures.

Safe Haven Maritime Pte Ltd has in place Professional Indemnity Insurance (PII) through ITIC (International Transport Intermediaries Club Ltd of London) covering claims up to US\$ 5 million.
