

For Immediate Release

VersaSuite comments on the rules for meaningful use for Electronic Health Records

The EHR incentive program will provide incentive payments to eligible professionals and hospitals

Austin, Tx. January 12, 2010, Universal Software Solutions, Inc. (USSI) dba VersaSuite Integrated Healthcare Solutions, a leading provider of Healthcare IT solutions for practices and hospitals commented that the Notice of Proposed Rule Making issued last week on Electronic Health Records (EHR) was a positive step, ensuring healthcare organizations understand what is required to receive stimulus payment for healthcare IT adoption.

“I understand there’s been a bit of ambiguity around the requirements for meaningful use thus far. This is a very good step in the right direction,” said Rodney Brown, Director of Sales and Marketing for VersaSuite. “VersaSuite is in a great position to help practices understand and navigate through the criteria and the actual deployment process. We invite providers to visit our website and request information to tap into our extensive knowledge base.”

About VersaSuite

VersaSuite™ is the flagship product of Universal Software Solutions, Inc. (USSI), a rapidly growing software company located in Austin, Texas, USA.

USSI was founded in 1994 specializing in the development of integrated health care software solutions for both clinical and hospital environments. A comprehensive practice-management ensemble, VersaSuite is a symphony of several vertically-oriented modules: The healthcare modules perform clinical and management tasks for all medical specialties both within in-patient and out-patient care settings. The business modules automate employee scheduling, client tracking & invoicing, payroll processing, human resources management, and employee time-tracking & scheduling. With cutting-edge technology and marketplace insight, VersaSuite offers

a complete integrated clinical and management solution designed to help any healthcare organization to provide exceptional patient care and achieve optimal competitive efficiency. For more information, please visit versasuite.com.
