

FACTS

TigerTurf annually manufactures hundreds of synthetic field systems, servicing customers in over 80 countries and 15+ sports.

TigerTurf has offices in New Zealand, Australia, the United Kingdom, Germany, the United States and Argentina.

TigerTurf is an official Licensee to the FIFA Quality Concept.

TigerTurf systems meet the standards of key sport governing bodies: FIFA, FIH, IRB, ITF & World Bowls.

Strategically located around the world, TigerTurf owns and operates their own manufacturing facilities, some with ISO 9001 certification.

TigerTurf

TIGERTURF: ONE OF THE WORLD'S LARGEST SYNTHETIC TURF INNOVATORS, MANUFACTURERS

TigerTurf may be a new name in the Americas, but in nearly every other continent, the company is well known for its prowess as a technologically advanced, quality-driven manufacturer of synthetic field systems.

COMPANY BACKGROUND:

- Since starting as a small New Zealand turf company in 1981, TigerTurf has installed thousands of pitches in its 27 years of history.
- Today TigerTurf International is one of the world's largest synthetic turf manufacturers, with an unprecedented focus on research and development.
- TigerTurf employs one of the largest R&D departments in the synthetic turf industry and has its own laboratories equipped with the latest testing equipment.
- TigerTurf manufactures systems for nearly every sport on grass: football, soccer, baseball, field hockey, lacrosse, tennis, rugby, golf, cricket, netball, and lawn bowling.
- The company also manufactures a wide array of commercial and residential landscape solutions.
- TigerTurf products cover the globe, from Africa to China, Japan to Europe, Malaysia to the Americas, Singapore to the UK and beyond.
- To meet its wide range of customer needs, TigerTurf offers three tiers of solutions:
 - Customized (built on demand) to customer specifications
 - Systems meeting stringent sport governing guidelines
 - Proven, more commonly used systems
- TigerTurf manufactures systems faster, more efficiently and more competitively by transferring global technology to products for local manufacturing and markets.
- TigerTurf believes in thinking ahead, which is why the company is continually at work discovering how best to recycle synthetic turf products for future surfacing needs.
