

Building Envelope Science Institute's First Annual Conference on Defective "Chinese" Drywall

(BESI) is a specialized institute dedicated to the advancement of education, specifically designed for the construction industry. The Institute's first major contribution to the industry is providing a solution to the Defective (Chinese or corrosive) Drywall crisis that has affected owners in 38 States, the District of Columbia, American Samoa, and Puerto Rico.

This is a time to get involved, share experiences and expertise with others, and to actively participate in discussions relevant to the inspection, remediation, and stigma of structures with Defective Drywall.

Expert Panel Discussions

Date: October 25, 2010

Time: 9:00 AM - 5:00 PM

The topics for discussion will include the following panels:

1. Inspections, tools (i.e. XRF), markings, techniques
2. Chemical and scientific analysis of the problem and issues
3. Health effects pertaining to defective drywall
4. Remediation, protocols, partial remediation, clearance testing
5. Resale, stigma, warranties, realtor's concerns, buying & selling
6. Legal issues, preservation of evidence

Each of the six (6) sessions will have at least three (3) expert panel members that will address the issue pertaining to there session.

Location for Both Events

Hilton Fort Lauderdale Marina
1881 SE 17th Street Causeway
Ft. Lauderdale, Florida 33316

Registration Fee:

\$150.00

Reception & Networking

Date: October 24, 2010

Time: 6:00 - 9:00 PM

This is an excellent opportunity for anyone interested in reaching professionals in the construction industry who are performing inspections to identify effected structures, and those remediating structures with Defective Drywall.

This evening will offer time for members, exhibitors, sponsors, panelists, and guest to enjoy good food, conversation and to network with other industry professionals.

The exhibition area is open from Sunday night through Tuesday night. Some of the exhibitors include Oxford Instruments, NanoScale Corporation, Drywall Science, U S Building Consultants, and National Construction Warranty Corporation.

You're Invited to Participate & Learn More...
