***“LEDsense Technologies Inc. launches new LED lighting e-commerce platform: [www.SolidApollo.com](http://www.SolidApollo.com)”***

SolidApollo.com, an online distribution platform - which provides state of the art LED lighting products solutions for end users, lighting resellers and wholesalers - has just been launched (December 2010).

Lynnwood, Washington Monday December 6<sup>th</sup> 2010. CEO Manuel Barquin announced today the launch of the new LED lighting e-commerce site SolidApollo.com, which provides high end LED lighting products and solutions aimed at resellers, and end users.

This new e-commerce platform offers the latest technology in LED lighting products and solutions.

According to CEO, Manuel Barquin, “We are very excited about the launch of [Solidapollo.com](http://Solidapollo.com). This new e-commerce platform means end users and resellers can, in just one stop, have their LED Lighting needs met- saving them invaluable time. We have developed a wide range of UL Listed products and therefore provide energy efficient solutions to contractors and end users.”

SolidApollo.com offers an array of LED lighting products that covers the growing demand for technology such as, Linear LED lighting, Architectural LED lighting solutions, LED light bulbs, LED Control Systems. Solidapollo.com also has a highly specialized technical design team that will focus on project based solutions.

SolidApollo.com provides LED light Products and solutions ranging from LED Strips, LED Light bulbs, LED panels, DMX and RGB control systems, automotive LED lighting, to industrial LED lighting solutions.
