4 Simple Steps!

ATMlynk™ Image Summary

1. Images are captured at the ATM.
2. Deposit transaction is submitted by CashTrans to the Core Processor for posting.
3. Encrypted data transmitted to ICR Server for verification. A verification using ICR (CAR/LAR) is performed and items are balanced.
4. Posting file is generated (X9.37) and made available for submission to the Federal Reserve, Core or Custom Designed Solution.

About CashTrans

Based in Austell, GA., Cash Transactions, LLC (CashTrans) www.cashtrans.com provides affordable ATM solutions to over 900 small and medium-sized, retailers and financial Institutions. It currently drives over 100 financial ATMs throughout the southeast. In addition to deploying ATM equipment, CashTrans also offers "Turn-key Outsourced Solutions" and a complete service program that includes on-site and off-site technical assistance from certified ATM technicians and seasoned professionals. CashTrans is authorized to sell and service Wincor-Nixdorf, Nautilus Hyosung, Triton and other brands of ATM equipment.
