CHER

This is an exclusive movie not yet released to the public! After showing clips of the most famous songs of our time, it takes us behind the lives of the unknown musicians who made the rock stars we know and love, famous. After the movie there will be a live show featuring the full length songs from the movie, and played by some of the musicians who wrote and recorded these songs! This movie is the story about a group of musicians in the 60's who broke all the rules of music and impacted the music world forever. Thus calling them The Wrecking Crew!
