

With and inside a collaboration to raise awareness of The International Day of Peace and

**Planting Seeds & The Kind Foundation: Peace in Our Lifetime Initiative**

invite you to join in a celebration:

## **A DAY OF GRATITUDE AND THANKS**

to focus on all the good being created by people all across the globe.

***On Peace Day 21<sup>st</sup> September***

For all people actively creating PEACE everyday

For Nature, Humanity and the Environment

**We are creating a place where humanity can shine.**

---

**On this International Day of Peace there is a ceasefire. We are raising awareness and celebrating the day when we as humanity lay down our weapons by conscious choice.**

**All organizations can stand as one this day in gratitude and thanks.** This will shift people's attention to the difference we're all making, thus reigniting the spirit of contribution. People will have no doubt about the difference that funding and donations have accomplished. This will restore faith in the good work being done. With the knowledge it works, people will contribute more time and money because they can actually see measurable results

**Charities, NGO's, Social Enterprises, Businesses & Community Services can thank those who contribute:**

- The generous contributors who fund the work
- Those on the ground making it happen who work day in and day out, who never get acknowledged and thanked. Sometimes in terribly difficult circumstances. Let us let them be known, and express our gratitude for their efforts.

### **How to thank them?**

- Directly by newsletters, emails, blogs or through the media, highlighting the Good News about their achievements this year. In this way, the outcomes will be acknowledged and we will bring our attention to the peace that has, and is being created, not just on one day but every day.
- The Celebrities or people of note can create gratitude videos sharing the good news and thanking the people on the ground who create the peace. They can now be the voice thanking everyone, instead of asking for more. They can post them on our site or their own website and blog. Not forgetting they can tweet using #gratitude or #thanks tags as well as offering the free Peace Certificate.

**Individuals, Friends and Families will be able to thank people who they care about in their lives and communities -This day is for everyone to be recognized and acknowledged.**

- Those who have helped them at home, at work or at school and those who care for them
- The millions of people who are full time carers - this is their day
- Those who provided a service or contribution :
- Our Nurses, Doctors, Firemen, Teachers, Policemen, Lifeguards
- Our Community Services, Social Workers and Volunteer Networks
- Helplines and Social Networks,
- Our national services and those who serve within them
- The people who recycle, spend time working for nature and conservation

## About Peace in OUR Lifetime

Peace in OUR Lifetime offers a free personalized peace certificate to each person who consciously chooses to Stand in Peace. Their voice is counted in efforts to recognize 1 billions souls standing united in celebration of the Peace that is. We will also supply this certificate to organizations who wish to also offer the certificate, (without coming to our site and no registration or email is required.)

Until we can see the Peace that is being created already, we will not know peace, or feel empowered to create more peace. Together we can restore faith and realize that peace begins with each one of us and ripples out.

We can begin now and give this planet back to the people who are making a difference everyday.

As we shift our experience from one of power and force to one where we see the differences we are making and inspire people to help, work together and bring change to their life locally.

This will restore faith in our ability to create peace.

Peace will be known to exist as the bigger part of who we are.

We will be in action rather than being overwhelmed with the idea.

Peace is possible because we are already creating it every day.. maybe .. we just did not see it!

*"We're all unique and see the world differently and yet,  
we are **ONE VOICE** standing together for Peace"*

Having a Peace Certificate shows that a person has made a conscious choice to Stand for PEACE. It is a gift to thank them and a way everyone one can be counted collectively, as one voice for peace. They can put their free Peace Certificate anywhere: Post it as their profile picture. They can print it on a t-shirt, mug or make a poster of it and share it anywhere they choose.

**Marcia Johnson Co-CREATOR of Peace in OUR Lifetime & CEO of the Eaupening** *"Every action that WE take, every decision that WE make matters... WE matter. Together WE are creating the future that WE want to see in the world. It is up to all of us to celebrate and focus on the Peace that WE do have, so that we can shift our collective focus onto creating more of the same. Globally WE can Stand together in gratitude and thanks in celebration for the Peace that we have every day. By shifting our perspective from 'fear based thinking' to creating Solutions out of possibilities, WE create an Eaupening (opening) for change and opportunity. Not only is Peace possible, it is at the core of our human experience. It is up to all of us to unit in elevating the Peace that is into the ripple effect of Peace Abundance that can be. "*
