

GPS NAVIGATION Commercial Drivers

Continuing its pioneering focus on innovation for the commercial truck navigation market, Teletype has expanded its WorldNav Truck GPS offerings to include new models allowing two-way communication.

Benefits

- **Easy to Use** - Producing truck friendly routing for the entire route avoiding low bridges, commercially restricted areas, and more. The Teletype WorldNav devices evaluate the entire route and produce a suitable route taking into account low bridges, weight restrictions, and Hazmat levels. In addition, the WorldNav GPS will avoid tunnels and parkways when appropriate. Other products simply flash a warning message regarding a low bridge – by then it might be too late and the driver is forced to back up (*or worse*). US, Canada, Mexico maps included. Using WorldNav you'll **"Know before you go!"**
- **Save Time and Money** - avoid costly tickets, avoid tolls, navigate unfamiliar territory efficiently, saving time, and gas
- **Hazmat Routing** - offers 9 levels of Hazmat routing if desired
- **Advanced Navigation - Lane Assist, Junction View and Smart Search Technology™** - The Teletype Smart Search Technology overcomes the challenge of locating addresses that may be specified incorrectly or are complicated (*such as those with prefixes and suffixes, SW, E...*)
- **Easy Updating** - via memory card or internet download
- **Voice Directions** - pronounces street names in English, Spanish or French
Example: In 2 miles, take Exit 23, to I-95 North
- **Touch Screen** - High resolution touch screens, 2D/3D, day/night, and more
- **Entertainment functions** - Movie, picture and music player functions included
- **12+ Million Points of Interest** - Easily locate truck stops, fuel stops, rest areas, CAT scale locations, businesses, and more. A unique telephone number search allows businesses to be found without the need for an address.
- **Waypoints** - add unlimited number of your own points for future reference.
- **Visible differences on the map based on truck size and weight** - showing truck restricted areas in bright pink and automatically avoiding these areas when routing. Teletype developed this technology and has pending patents on this implementation. The systems can also be configured for RV'ers, Coach, and Motor Home drivers.
- **Sleek High Resolution Large Screens** - Slim contemporary styling and highly responsive touch screens allow you to see more roads and details than older systems.
- **Intelligent re-route** - Drivers can select detour (*avoid 1, 3, or 5 miles ahead, back to original route*) or take advantage of flexible routing options such as changing to "avoid freeways".
- **Expansion serial port** - Optional accessories for this unique port include Traffic Antenna for unlimited use of Traffic Incident Reporting, Tire Pressure Monitor Sensors, and Live Tracking and Messaging so that with your permission, friends and family can track your trip in real-time, and you can send and receive messages from your dispatcher.*

740060 WORLDNAV 7400 COMMUNICATOR 7" HIGH RESOLUTION TRUCK GPS

The latest and most versatile model offered for the commercial trucker. Features optional traffic, tire pressure monitoring, and live tracking. Includes Bluetooth, and FM.

Processor:	SiRF Atlas V AT842 533MHz
NAND Flash:	4 GB
LCD:	7.0 inch TFT screen, resolution: 800 x 480 pixels
Touch Screen:	High precision touch screen
USB:	MINI USB port
Storage Slot:	Micro SD slot
Comm Port:	Support for communication accessories such as traffic display, tire pressure monitoring, and live tracking (<i>sold separately</i>)
Antenna:	Internal antenna
Audio:	2-Watt Built-in Speaker
Bluetooth:	Allows for hands-free cell phone use
FM Transmitter:	Broadcasts GPS audio through vehicle speakers
Battery:	Built-in high capacity Lithium back up battery
Entertainment:	Movies, Music, Pictures, eText
Weight:	366 grams / 13 oz
Dimensions:	175 x 109.2 x 14.1 mm / 6.88" x 4.29" x .55"

520060 WORLDNAV 5200 HIGH RESOLUTION 5" GPS

Offers the same truck specific routing as the 7" models in a slightly smaller form factor. Includes Bluetooth, and FM.

Processor:	SiRF Atlas V ARM 11 533MHz
NAND Flash:	4 GB
LCD:	5.0 inch TFT screen, resolution: 800 x 480 pixels
Touch Screen:	High precision touch screen
USB:	MINI USB port
Storage Slot:	Micro SD slot
Antenna:	Internal antenna
Audio:	1.7-Watt Built-in Speaker
Bluetooth:	Allows for hands-free cell phone use
FM Transmitter:	Broadcasts GPS audio through vehicle speakers
Battery:	Built-in high capacity Lithium back up battery
Entertainment:	Movies, Music, Pictures, eText
Weight:	184 grams / 7 oz
Dimensions:	128 x 82 x 12 mm / 5" x 3.2" x .47"

730065 WORLDNAV 7300 HIGH RESOLUTION TRUCK GPS + REARVIEW CAMERA

Offers the convenience of a commercial truck GPS combined with a rearview camera to improve safety when backing up. Includes Bluetooth, and FM.

Processor:	SiRF Atlas IV AT842 533MHz
NAND Flash:	4 GB
LCD:	7.0 inch TFT screen, resolution: 800 x 480 pixels
Touch Screen:	High precision touch screen
USB:	MINI USB port
Storage Slot:	Micro SD slot
AV Input:	Supports Rearview Camera (<i>included in 730065 bundle</i>)
Antenna:	Internal antenna;
Audio:	2-Watt Built-in Speaker
Bluetooth:	Allows for hands-free cell phone use
FM Transmitter:	Broadcasts GPS audio through vehicle speakers
Battery:	Built-in high capacity Lithium back up battery
Entertainment:	Movies, Music, Pictures, eText
Weight:	366 grams / 13 oz
Dimensions:	175 x 109.2 x 14.1 mm / 6.88" x 4.29" x .55"
Camera:	
Display Screen:	Pixels: 628 x 582 / Resolution: 380 TV lines
Power:	Voltage: 12V
Lens:	3.6mm lens with 92 degree angle of view
Dimensions:	5.5 x 6.5 x 4.3cm / 2.2" x 2.6" x 1.7"

330060 WORLDNAV 3300 TRUCK GPS 3.5"

Offers a budget solution for the commercial driver.

Processor:	SiRF Centrality Atlas III 372 MHz
Display Screen:	3.5 inch Touch Screen LCD
Storage Slot:	Secure Digital slot
USB:	Mini USB port
Audio:	1.6-Watt Built-in Speaker
Battery:	Built-in Rechargeable Li-ion Battery
Entertainment:	Movies, Music, Pictures, eText
Weight:	163 g / 6 oz
Dimensions:	94 x 87 x 22 mm / 3.7" x 3.4" x 0.86"
