

Gluvana Gluten-Free Foods Launches Baking and Batter Mixes

Atlanta, GA — Gluvana Gluten-Free Foods is pleased to announce the introduction of its line of gluten free baking and batter mixes for the foodservice and industrial food markets.

“The food industry has responded to the growing consumer sensitivity to gluten with products that are indeed free from it,” said Chandra Houston, President of Gluvana Gluten-Free Foods. “The problem is, the great majority of those products aren’t only void of gluten, they’re void of balanced nutrition as well. It is the intent and mission of Gluvana to change that. Our baking and batter mixes leverage the balanced proteins of ancient grains as the cornerstone to providing the nutrition that is critical to consumers looking to avoid gluten in their diets.”

Gluten-Free baking and batter mixes from Gluvana Gluten-Free Foods are being marketed to the industrial and foodservice segments of the food industry. Offered in convenient 6/5 foodservice packaging, the products are perfect for multiple operator venues as well as industrial food applications. Please direct inquiries to the sales development office at 763-208-1671.

ABOUT Gluvana Gluten-Free Foods, LLC

Gluvana™ Gluten-Free Foods markets gluten free products to the industrial food and foodservice markets. Based in Atlanta, GA, the Company’s main mission is to provide products that are nutritionally balanced and free from gluten. Through seminars and other outreach initiatives the company hopes to educate the consumer as well as health professionals on the critical need to maintain nutrition in a gluten free diet.
