

## EXCEPTION REPORTING ANALYSIS

The majority of losses in business occurs at the point of sale (POS). Incidents related to employee theft, error and compliance have a significant impact on losses. Early resolution and correction is vital to loss reduction.

Without the proper personnel, knowledge or expertise in system usage, detecting and resolving exceptions can be difficult. The common challenges are the resources necessary for effective monitoring and the expertise to sift through a significant number of transactions to locate the loss identifiers.

### The Value of LPI Exception Analysis

- DEDICATED ANALYSTS WITH MULTI-RETAILER EXPERIENCE AND KNOWLEDGE
- OVER A DECADE OF EXPERIENCE WORKING WITH MULTIPLE EXCEPTION REPORTING PLATFORMS

CAN HELP YOU ACHIEVE YOUR GOALS

### Audits & Store Visits:

We can work with you to either develop or support a store visitation program that includes multiple touch points ranging from short loss prevention awareness visits to specialized audits. Increase your loss prevention presence through a joint store visit program.

### Employee Theft Resolution:

Leverage the density of our nationwide team of proprietary loss prevention professionals to increase your theft resolution. Together we can augment your existing team, cover specific markets or provide you with as needed investigations and resolution to your employee theft issues or concerns.

Over 50% of our clients  
HAVE AN EXISTING  
loss prevention function.

### Exception-Based Reporting & Analysis:

With the knowledge and daily use of various EBR applications, our Data Analysis Team can provide you with the specialized skills of analyzing your point of sale data. Working regularly with existing LP field teams, our team will provide detailed reporting and case packaging for a fast resolution to exceptions.

### Target Store Solutions:

Have a high shrink market or group of stores requiring a targeted approach? Our model of best practices, methodologies and field presence can provide you with a full solution to decrease shrink in your target locations. Together we can develop a program designed to meet your shrink reduction goals.

### The National Shrink Database:

LP Innovations is proud to deliver to the industry a new and exciting industry benchmarking tool. Developed in partnership with CAP Index, Inc., the National Shrink Database® is an online resource tool provided free to retailers who provide data to support the statistics. It provides various ways of analyzing shrink and loss prevention statistics across the industry and for specific retail categories.

### Other Services Include:

- Training and Awareness Programs
- Mystery Shopping Solutions
- Age Verification and Regulatory Services
- LP Assessments and Consulting
- Hosted Exception Reporting Solutions
