

## **iQue Repair Gains Market Share Servicing Apple® Products with Jordan Landing Grand Opening**

*"Restoring Your Technology To Its Fullest Potential"™*

*iQue Repair, a leader in the iPhone®, iPad® and iPod® repair industry and one of Utah's fastest growing businesses, celebrated the completion of its first year of operation with the grand opening of its fifth location in the well-known, Jordan Landing mega-shopping complex near Salt Lake City.*

**Salt Lake City, UT, October 2012** – iQue Repair, [www.iquerepair.com](http://www.iquerepair.com), recently interviewed on [ABC Channel 4's Daily Dish](#) program and currently finalists in this year's [Grow America Springboard Competition](#), announced today that they've opened their fifth iQue Repair location in just under one year of operation; located adjacent to the Cinemark Theater in the well-known, mega-shopping complex, Jordan Landing.

iQue Repair owner, K.C. Kelly explained, "This marks another monumental milestone in iQue Repair's growth as we accelerate our plans to service all new and used Apple® products nationwide. This new location is convenient to our Apple® customers in that area and provides another facility to service our unlimited repair, no deductible iSmart Protection Plans."

Kelly continued, "We're excited about our Jordan Landing location. It's central to main thoroughfares like Bangerter Boulevard and the Salt Lake Valley. We're in the heart of the entertainment and retail district which gives iQue both visibility and accessibility to make a difference."

Morgan McKell, iQue Repair co-owner added, "Reportedly, more than fifty percent of the families in America own some type of Apple® product. When something goes wrong, we want you to think of iQue Repair first as your same-day service solution provider."

He continued, "Only one week after the iPhone® 5 was delivered, we've had a number of calls asking for repair quotes. We recommend you seriously consider iSmart Protection Plans before that untimely accident happens so you can take advantage of our most affordable repair services for all of your Apple® iDevices."

iQue Repair specializes in Apple® product repairs and is home of the iSmart Protection Plan for individuals, families, corporations, schools and school districts. The iSmart Elite protection plan is available nationwide through iQue's mail-in service.

Though not affiliated with Apple, Inc., iQue Repair shares a common vision for providing quality products and services for Apple® mobile devices and computers. iPhone®, iPod® and iPad® are registered trademarks of Apple, Inc. iSmart Protection™ and iSmart Elite™ are Trademarks of iQue Repair, LLC. iQue Repair is a member of the Utah Technology Counsel.
