SMARTTRUCKROUTE

LIVE TRUCK ROUTING ON YOUR SMARTPHONE OR TABLET!

Driving a truck is hard enough without worrying about navigation. **SmartTruckRoute creates truck-friendly routes with live map updates and live traffic using your smartphone or tablet.**

Your maps will always be up to date. It's easy to use, just speak or type the destination, within seconds you'll have a truck specific route with turn by turn instructions, that avoids low bridges and uses truck friendly roads. Specify your truck dimensions and weight, even your hazmat level for the most accurate route. Choose regular street map view or navigate with satellite images for a more realistic view. Check the turn by turn directions before you drive or while en route. Set your preferred routing helping you arrive to your destination on time within budget. **Stay safe and save money with SmartTruckRoute for your smartphone or tablet.**

- Truck Specific Routes
- Free Live Traffic
- Voice Recognition
- Truck Dimensions
- Route Preferences
- Low Monthly Fee

Long Routes in Seconds

Customize Truck Settings if Desired

Turn by Turn Instructions

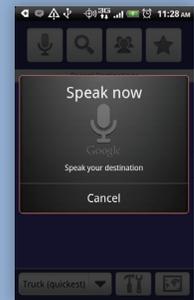

Zoom Directly to the Dock

Navigate using Satellite Images with Traffic Overlay

Street View with Truck Route Overlay

Voice Recognition allows you to Speak the Destination

SmartTruckRoute is powered by WorldNav, pioneers in truck routing for portable GPS.

Drive with confidence!
