### Next generation of class-D amplifiers

The IQ M300 amplifier - a 300-watt tour de force design that establishes a new benchmark in class-D amplifiers.

The IQ M300 has delicate detailing, from a quite black background, with powerful punch and slam, with dimensional imagery.

The IQ M300 can drive any loudspeaker with the control, power, and finesse required to bring music's dynamics and subtle details to life. There is a difference, and you can hear it.

The IQ M300 has a delicate focus, excellent micro-dynamics, and expansive precise imaging, with powerful and accurate bass.

The IQ M300 is very musical, yet with a clean, clear and fast refined sound reproduction.

Overall, serious amplifiers for serious listeners.

Please visit the IQ web site for more specific product information. We want to hear from you.

Good listening.

In a world full of choices, IQ strives to design and manufacture products that set us apart.

Our focus is on exquisite engineering, quality control, to provide you, our valued customers, with superior products.

The IQ M300 features a beautiful seamless extrusion enclosure, with machined aluminum top and bottom panels. The extrusion mounting holes are created using CNC machines, and all chassis printing is done via laser.

This ensures absolute precision of every component of the IQ M300 enclosure. Overall, a stunning aluminum enclosure with superb fit and finish.

At IQ, we are an engineering driven company, and firmly believe in rigorous and accurate amplifier power specifications.

It is the IQ position that the really only true and accurate amplifier power specification is FTC continuous sine wave power.

The IQ M300 amplifier power specifications are: 150-watts into 8-ohms & 300-watts into 4-ohms, FTC continuous sine wave, at less the 0.02% at any frequency, 20hz to 20Khz.

The IQ M300 amplifiers deliver on our goal of pristine clarity, natural tonality, expansive and precise imaging, with powerful and accurate bass with rhythm and slam

The IQ M300 at \$1,495 per pair, is changing the rules on what you can expect.

At IQ we get you back to what it is all about. Music & Movies
