HISPANIA UNVEILS BRAND, TENTATIVE OPEN DATE, AND HIRING SCHEDULE

Delafield, Wis. April 2013 – Natalia Aramoni & Juan Gutierrez, husband and wife and co-founders of Hispania, are excited to unveil the “look” to the newest restaurant coming to Downtown Delafield. Hispania, a high-end Mexican Fusion concept, will bring an entirely new Mexican twist to 601 Genesee Street.

“We’re excited to unveil the logo because it really is the ultimate representation of who we are and what we’re bringing to Downtown Delafield,” stated Juan. “The logo captures the zeitgeist we wish to bring to our restaurant – a culture full of a rich history, traditions and natural and authentic recipes.”

With the restaurant slated to open in May, near the end of the month, Hispania intends on accepting resumes/applications for both front-of-house and back-of-house positions.

HispaniA

Natalia Aramoni will be intimately involved with the operations and quality control at Hispania, having this to say about staffing: “We’ve already been in talks with a few seasoned professionals to act as our Operations Manager. Once he or she is in place, we’ll start interviewing candidates at our new space. Training will take place in early May to adequately prepare everyone for our unique menu and concept.”

If you wish to submit your curriculum vitae or resume for any opportunities at Hispania, simply email your information to jobs@lahispania.com. Hispania will begin reviewing them in early May, setting up interviews shortly thereafter.

In the next few weeks, Hispania will begin releasing more information about its menu, Grand Opening schedule, and other exciting features about the restaurant.
