

DAG TECH PRESS RELEASE

June 8, 2013

DAG Tech announces 500th Estore order

Washington, DC -- 06/08/13 -- DAG Tech LLC's industry leading Estore was launched in early 2013 with the intent of providing true end-to-end IT services and products to its customers. On Friday June 7th 2013, DAG Tech's Estore processed its 500th order, ahead of schedule. The next plans are to add additional products and to begin public marketing.

estore.dagtech.com features best in class products, cloud services, voice services, consulting services, and hardware. Services and products are sold in both one-time cost and subscription formats. Services include IT support, network security, CTO services, procurement services, and IT helpdesk. Products include computers, network equipment, software, and devices. Subscription services include IT Service Level Agreements, cloud software, network monitoring, and cloud data systems.

About DAG Tech

DAG Tech is an innovative and reliable IT solutions firm, based in New York City and Washington DC. Since 1999, DAG Tech has consistently delivered quality results and grown its clientele and technical expertise. In addition, DAG Tech has become a tech industry leader. DAG Tech has launched a revolutionary EStore estore.dagtech.com, where customers can buy IT services, cloud services, applications, and products online. The services firm has designed and launched Seven Gems, a modular build-it-yourself cloud-based Voice-over-IP system (www.sevengems.us), Private Terminal web-secure desktops, and Violetbox network attached storage.
