Count on CAT 6A cabling solutions that work as hard as you.

Major network installations are never a trial and error situation. Errors are too costly to even consider. You need structured cabling that works – from a dedicated partner that values relationships above all else. No problem. That's everything you can expect from comCables. All complete solutions are backed by the comCables Total Assurance Lifetime Warranty.

Available Products

- ☑ **Bulk Cable**
- ☑ **Patch Cable**
- ☑ **Patch Panels**
- ☑ **Jacks**
- ☑ **Rapid Punch Tool**

With comCables CAT 6A structured cabling, you'll experience better performance with less signal loss and crosstalk.

CAT 6A structured cabling solutions give you the tools for lasting network installation success.

comCables CAT 6A solutions are ideal for today's 10-gigabit Ethernet networks. Our commitment to quality ensures a product line that complies with every applicable code and standard, so that your CAT 6A installations meet all electrical channel performance requirements. Expect higher value today with performance that meets the needs of tomorrow's more demanding networks. And of course, all comCables CAT 6A structured cabling products come with a Lifetime Warranty and an available 25-year application assurance warranty sold through our network of qualified Certified Installation Partners (CIP) contractors.

Bulk Cable

CAT 6A PVC Cable

BC-C6APVC-XX

Specifications:

Cable Type: UTP

Jacket Material: Flame-retardant PVC

Conductor Material: Solid Bare Copper

Conductor Gauge: 23AWG

ETL Verified TIA-568-C.2-10, & ISO/IEC 11801

ROHS Compliant

XX=Available in White & Blue

CAT 6A Plenum Cable

BC-C6APL-XX

Specifications:

Cable Type: UTP

Jacket Material: Low Smoke

Conductor Material: Solid Bare Copper

Conductor Gauge: 23AWG

ETL Verified TIA-568-C.2-10, & ISO/IEC 11801

ROHS Compliant

XX=Available in White & Blue

Patch Cable

CAT 6A Shielded Patch Cable

Snagless Shielded

N-12111-*M-XX

Specifications:

Cable Type: S/FTP

Category 6A

ETL Verified TIA–568-C.2, & ISO/IEC 11801

*=Available in 1ft, 2ft, 3ft, 5ft, 7ft, 10ft, 14ft, 25ft, 50ft, 75ft, 100ft

XX=Available in White & Blue

Jacks

CAT 6A 10-Gig Shielded Jack

CN-C6A-XX

Specifications:

Meets ANSI/TIA-568-C.2

CAT 6 Channel 15M Short

Permanent Link Requirements
Safety Standard cUL | UL

XX=Available in White, Ivory, Black & Blue

Patch Panels

**24 Port Keystone Panel Blank Flush Mount**

PP-K24-FM-C

Material: 16 AWG Steel

TIA 19 in rack mount

Write-on labeling areas

Wire manager bar and screws included
48 Port Keystone Panel Blank Flush Mount

PP-K48-FM-C

Material: 16 AWG Steel

TIA 19 in rack mount

Write-on labeling areas

Wire manager bar and screws included

Rapid Punch Tool

90-Degree Rapid Punch Down Tool

TO-CRIMP-90-RPT-C

Material: Steel

Efficient and quick jack termination

Comfortable rubber grip handle

Also compatible with comCables CAT 6, 5E, and 3 Performance Jacks
