## The Pillars of the American Dream

### PUBLIC EDUCATION

Public education can make all dreams possible, transforming individuals, families, future generations and communities. Rico knows that all children, regardless of their background or financial circumstances, deserve a high quality education.

### HEALTHCARE

Medical bills can overwhelm a family. Some people even die because they can't afford critical treatment. This is simply wrong, and Rico will fight for healthcare for all.

### MIDDLE CLASS JOBS

To fuel a growing economy we need the full range of jobs from entry level to high paying professional positions. Rico's focus will be developing middle class jobs with benefits so families can save for their futures.

all things are possible.”**
