Group Benefit Services (GBS) Welcomes Kim Angeles as Operations Manager

Springfield, MO. – December 26, 2013 - Group Benefit Services (GBS), an industry leading Third Party Administration firm, is proud to announce that Kim Angeles has been named as the firm's Operations Manager (OM).

Kim joins the GBS team after having spent 14 years with Infinite Innovations. Ms. Angeles brings more than 21 years of successful strategic business operations experience to GBS. Her duties included being responsible for evaluating, developing, evolving, and documenting critical processes of all business units in order to completely integrate all functions that resulted in yielding a more cohesive, operational, and efficient business environment. In addition, her responsibilities also included ensuring that all operational processes and output complied with all state, federal and industry regulatory agencies.

James Deren, President and CEO of GBS, said, " In her role at GBS, Kim will bring her executive level experience from within an technology rich environment to assist in optimizing all operations as well as contributing to administrative product development that will expand our client base and increase the scope of the types of projects we will be able to develop."

Mr. Deren further said "Kim will bring tremendous energy, operational experience, and a unique perspective to our firm." Mr. Deren went on to say, "Kim is an incredibly talented executive with the rare ability to understand technology, business development, finance, and operations which will be an excellent asset to our organization as we continue to grow by helping our clients to consistently achieve their goals."

Group Benefit Services, Inc. (GBS) is an insurance claim technology organization headquartered in Springfield, Missouri.
