

Stand Out From the Crowd with Fast and Easy Check Customization

Step by step guide on how to add logo to bank check.

You will never know who will handle your checks. The customized bank checks are also a great way to differentiate your company and get your brand out in the marketplace. We expect [ezCheckPrinting check printing software](#) can give users more controls on check design and printing. So you can customize your bank checks easily.

A company logo on the bank checks is an efficient way to catch more eyeballs. Followings are the four easy steps to design and print the bank check with a logo.

Step 1: Install ezCheckPrinting

If you have not installed ezCheckPrinting, you can download it from

http://www.halfpricesoft.com/check_printing_software_download.asp

Just follow the instructions on the download page to finish the installation. **This software is compatible with the latest Windows 7 system (32-bit or 64-bit).**

Step 2: Setup your bank account and add the logo image.

Click the top menu "Settings->check setup" to open the check setup page. Set up your check information and add your company logo file there.

Check Setup (CompanyCheck)

Use Blank Check Stock (Uncheck it to use pre-print check sheet)

Step 3: Customize the check layout

(This feature is just available with the full version.)

Click the top menu "Settings->Check layout" to open the check layout page. You can customize the layout of your check by changing the font size, logo position, logo size or add a new label.

To customize the logo, you need to select the logo from the item picker first. Then you can resize it or drag/drop the logo to a new position. If you are satisfied with the effect, you can save your change.
