**FOR IMMEDIATE RELEASE**

### **Richardson Industries Board Approves Production Facility Expansion**

**Haven, WI:** Richco Structures, a division of Richardson Industries, plans to expand its plant at W989 County Road FF, Haven, Wisconsin. Richardson Industries' Board of Directors recently approved a \$1,000,000 plant expansion including a 12,000 square foot addition to its existing facilities. The additional manufacturing floor space will be used to accommodate new building components equipment purchased from MiTek.

"This new equipment will allow Richco to increase production and meet growing customer demand," said Gary Kane, CEO of Richardson Industries. "Richco's production is up by over thirty percent for the second year in a row."

Founded in 1962, Richco Structures raised the quality and lowered the cost of building homes by manufacturing roof trusses made to order and delivering them to the construction site. Floor trusses and wall panels soon followed, helping Richco expand to become one of the Midwest's largest manufacturers of quality wood roof and floor trusses. Its web site is [www.richcostr.com](http://www.richcostr.com).
