Richardson Kitchen & Bath Showroom Grand Opening

Sheboygan Falls, WI: Richardson Kitchen & Bath is proud to announce the grand opening of their new showroom on Saturday, January 17th at 202 Pine Street in Sheboygan Falls, Wisconsin.

In conjunction with the grand opening, Richardson Kitchen & Bath will unveil a revolutionary cabinetry system called Kanect. Kanect provides homeowners the ability to interchange the facade of kitchen or bath cabinetry in about an hour with no special tools or skills required.

“Everyone at Richardson Kitchen & Bath is excited for the upcoming grand opening and unveiling. The Kanect Cabinets System will revolutionize the cabinetry industry,” shared Gary Kane, Richardson Industries CEO. “Homeowners will now be able to change the entire look of their cabinets for the seasons, parties, and holidays. Imagine the possibilities,” Kane added.

A video on the Kanect website (www.KanectCabinetry.com) provides an example of the system in action, as one woman changes out an entire set of kitchen cabinets in about an hour.
