NinjaTrader Ecosystem welcomes Trading Market Technicals to its Ecosystem of 3rd Party Add-On Partners.

Denver, CO, November 18th, 2014 – NinjaTrader Ecosystem, LLC is pleased to welcome Trading Market Technicals to its expanding Ecosystem of 3rd Party Add-On Partners. Trading Market Technicals provides research and trading tools for the U.S. Equities, Forex, Precious Metals and Oils markets.

Trading Market Technicals offers free educational videos, custom trade alert indicators, plus an automated trading system dubbed "The Beast" developed exclusively for the NinjaTrader platform. The proprietary trading products and superb education offered by Trading Market Technicals are backed by over 28 years of trading experience. Trading Market Technicals is known for providing the necessary trading skills to compete in today's market conditions to both novice and experienced traders. Before trading in this volatile market, allow Trading Market Technicals to guide you in the right direction to implement a proper trading plan!

"NinjaScript allows traders to turn virtually any trading concept into workable strategies and visually appealing indicators", says Mark Marchi, Founder of Trading Market Technicals. "The Beast Automated Trading System could only have been made possible through NinjaTrader's powerful C# NinjaScript environment."

About NinjaTrader Group, LLC

NinjaTrader Group, LLC (<u>www.ninjatrader.com</u>) together with its subsidiaries provides award-winning electronic trading tools and brokerage services to self-directed traders allowing both manual and automated trade execution combined with sophisticated technical analysis software. Initially started in 2003 the company has evolved into a premier destination for active traders and has established an Ecosystem (<u>www.ninjatraderecosystem.com</u>) of over 400 partners developing custom tools and education based on the NinjaTrader platform. The company serves the global trading community providing free software for advanced charting, market analytics, trading system development and trade simulation along with simple transparent commissions.

About Trading Market Technicals

Having over 28 years of market experience form the sell side of the business, executing millions of shares for large institutions, allowed Trading Market Technicals to take advantage of high probability price movements in the market place. This was accomplished by understanding how large institutions trade orders, a vast knowledge of technical analysis and adapting said technical analysis based on ever evolving market conditions. For additional information please visit <u>www.tradingmarkettechnicals.com</u>.

Futures trading contains substantial risk and is not for every investor. An investor could potentially lose all or more than the initial investment. Risk capital is money that can be lost without jeopardizing ones financial security or life style. Only risk capital should be used for trading and only those with sufficient risk capital should consider trading. Past performance is not necessarily indicative of future results. <u>View Full Risk</u> <u>Disclosure</u>.

CFTC Rules 4.41 - Hypothetical or Simulated performance results have certain limitations, unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not been executed, the results may have under-or-over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profit or losses similar to those shown.
