

PODROOF

SHIPPING CONTAINER ROOF KITS

Our Podroof kits are made with durability and usefulness in mind. We're proud to produce the highest quality roof you can buy to create an outdoor shelter. They're truly unique, affordable and arrive ready to assemble. They can be used as permanent or temporary, portable structures. Create a sheltered storage or work area to protect from the elements. The container tops can also be covered for added protection. Our products are made in the USA of all steel.

Features:

- ▶ All American Galvanized steel
- ▶ Designed for quick and easy construction
- ▶ All kits are 20 feet length and attach to two, 20' shipping containers
- ▶ Kits can be combined end-to-end for longer lengths
- ▶ Can be disassembled, transported and re-assembled
- ▶ Roof attaches to container pin points for a secure attachment
- ▶ Inner or outer container mounting
- ▶ Requires no footings or approval in most cases
- ▶ Rated for 110 mph, exposure C and snow load of 25 lbs. per square foot
- ▶ Standard acrylic Galvalume finish or choice of 25 paint colors for roof and trim
- ▶ Optional gutters, unpainted or painted
- ▶ Lead-time is approximately three weeks
- ▶ Set-up and containers are not included

Choose

- 1 Roof type
- 2 Total width and space between containers needed
- 3 Number of kits

SEND YOUR ORDER

GABLE ROOF

Standard kit provides 20 feet of covered space between containers and covers the tops.

GAMBREL ROOF

Standard kits provide 20 or 25 feet covered space between containers. Outer mounted kits cover the container tops. Extension panels to cover container tops will be provided for inner mounted kits.

Custom Roof

Kits can be made in either roof type to provide the covered space and total span desired

- ▶ Prices starting at \$3950 each for standard kits
- ▶ 20 Year Guarantee
- ▶ FREE DELIVERY included within the Continental U.S.
