

BUNGEE MUMMY

BUNGEE MUMMY: KING'S ESCAPE LAUNCHES ONTO IOS AND ANDROID! WIN 3D PRINTABLE REWARDS IN MOBILE ADVENTURE GAME

King Phero rewards you with real-life 3D printed collectables in your quest to reclaim the throne and restore peace to Hagareem

Malta, 26 February 2014: Indie game studio Steampunk Wizards today announces that Bungee Mummy, offering 3D printable rewards, has launched on IOS. Bungee Mummy is now available for free download both on the [App Store for Apple](#) devices and on [Google Play for Android](#) devices.

Bungee Mummy is an awesome, fast-paced, adventure game where risk-taking, sharp reflexes and sheer determination are essential for victory!

Bungee Mummy Key Features

3D Printable Rewards: Gamers earn 3D printable rewards using Steampunk Wizard's unique 3D printing API e-commerce server plugin.

Dynamic, Instinctive Physics-based Mechanics and Gameplay: Gamers can develop individualized styles of play using swinging and bungee launching, relying on instinct and physics.

Innovative and Stimulating Puzzles: Solve mind-stimulating puzzles, complex challenges, and avoid countless tricks, traps, and surprises while defeating enemies along the way.

Outstanding Mobile Game Graphics: Graphics rival big screen play. The world of Hagareem virtually comes to life on your device.

Story overview:

As King Phero, swing and bungee launch to escape eerie levels and complete exciting challenges. Free your beloved people from the clutches of the evil Solark with the help of your buddy Madu. To achieve this noble goal, you must first escape the Great Pyramid. Fight your way through the trap-riddled underworld of Hagareem, confronting exciting puzzles and challenges with only your risk-taking nature, razor-sharp reflexes, and steely determination. Collect and earn vital scarabs, your in-game currency, to stock up on super power ups. The wiliest and most heroic will help put the great king back on the throne, free the people, and secure 3D printed rewards.

Steampunk Wizard's 3D printing technology will be available to game developers and marketers in Q2 2015.
