**Katy Spring
& MFG. Inc.**

Who we are and what we do:

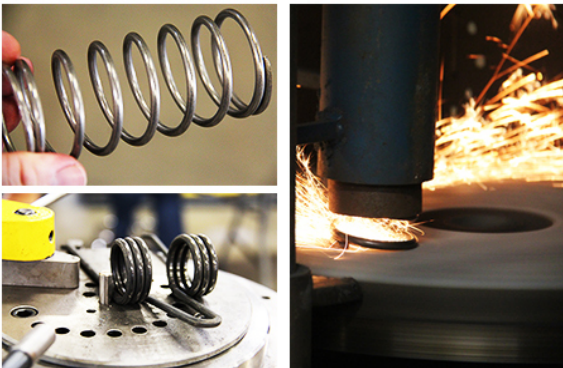

Katy Spring & Manufacturing, Inc. is a full service custom metal spring manufacturing company. Katy Spring manufactures compression springs, extension springs, torsion springs and flat springs along with other metal components. We cover endless varieties of shapes and sizes. Our Goal is to satisfy our customers and their unique project requirements with our primary focus being customer service. With over 150 years combined experience there are few spring problems **Katy Spring** hasn't solved. Please take a moment to visit our website www.katyspring.com

Materials we form:

Katy Spring offers a full range of manufacturing capabilities using NACE approved materials. Inconel X 750, Elgiloy, and MP35N in round, square, and rectangle wire configurations are just some of the exotic material used to manufacture springs at **Katy Spring**. Carbon steel and stainless steel material make up the majority of the orders processed through **Katy Spring**. We also manufacture springs with exotic materials such as Beryllium Copper, Brass and Rene 41 alloys. Please call for an estimate (281) 391-1888

QUALITY:

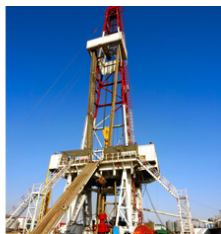

Our ISO 9001 certified quality system insures correct product is delivered. To enhance our quality system **Katy Spring** has implemented (SPC) Statistical Process Control. Charting data using (SPC) exposes any manufacturing flaws before costly mistakes are made on production runs. **Katy Spring** has a Material Review Board that quickly responds to any customer issues.

Chemical Industry

Valve Industry

Oilfield Industry

Medical Industry

Markets We Service:

Katy Spring designs and manufactures custom springs for a variety of markets. Chemical Industry, Valve Industry, Oilfield Industry, and springs used in the Medical industry are just some of the hundreds of markets we service.

Katy Spring also services the emerging Clean Energy Industry. The need for clean energy puts our design and manufacturing team in the middle of these new technologies. Please visit our website www.katyspring.com

Health Safety Environmental:

Health Safety and Environmental are a top priority at Katy Spring. HSE meetings are held weekly. All OSHA Standards and Regulations are adhered to and well documented. Please call Katy Spring (281) 391-1888 to set up a tour of our facility.
