

Wendy Gold Butterfly MOVA® Globe

The all-new Butterfly MOVA® Globe is a collaboration with decorative artist **Wendy Gold** to bring our Earth-inspired motion to a new audience. Featuring a world map composed of vibrant butterfly clusters, the ethereal globe rotates on its own in ambient light without batteries or wires, bringing serenity and whimsy to any interior space. The globe is perfect for home décor lovers and any wandering dreamers looking for a stimulating conversation piece or the perfect gift to give.

Special Features

Wings in Motion

The globe's continuous rotation adds a new dimension to Wendy's design, injecting life and a sense of flight into the artwork.

Attention to Detail

From the kaleidoscope of wing patterns to the intricate technical components, art and precision are woven into every aspect of the globe.

MSRP Pricing

6" Butterfly Globe (MG-6-WGB) – \$280

Collaborating with Wendy Gold

Wendy Gold launched ImagineNations™ in 2010 and has built her [successful brand](#) around one-of-a-kind, handcrafted designs. When we first saw her creative decoupage work, we knew that it would be the perfect addition to our [MOVArt](#) line of custom artworks brought to life by motion. The eco-friendly aspect of our creations also resonated with Wendy, who saw a responsible canvas for her playful artwork. Working with Wendy has helped us to broaden our design process and discover even more ways to incorporate art into our innovative and Earth-centric technology.
