**For Immediate Release**

**South Hills Assembly to Host a Hard Drive Shredding and Electronics Waste Recycling Event on Saturday, August 1, 2015 from 10:00 a.m. to 1:00 p.m.**

The dog days of summer are upon us. Do something really “cool” in all this heat by helping the environment. South Hills Assembly is proud to host a hard drive shredding and electronics waste recycling event on Saturday, August 1, 2015 on their premises located at 2725 Bethel Church Road in Bethel Park, PA. Area residents are encouraged to bring their obsolete and unwanted electronics to the church from 10:00 a.m. to 1:00 p.m. Vehicle unloading assistance will be provided to all visitors.

This recycling event is intended for items typically purchased throughout the year including computer equipment, cellphones, small appliances, cameras, calculators, typewriters, fax machines, keyboards, computer peripherals, and more.

On site hard drive shredding will be performed by CyberCrunch at a cost of \$10 per hard drive. CyberCrunch personnel will be onsite to help remove hard drives from computer. A portion of the proceeds will benefit the church.

For security purposes, all data collected will be destroyed. This convenient recycling program is provided by South Hills Assembly and all items collected will be responsibly recycled by Commonwealth Computer Recycling, a Pennsylvania compliant, R2 certified universal waste and recycling firm.

For a full list of acceptable items please visit our web site events page at <http://www.ccr cyber.com/events/>.

Can't make it to the event? We offer nationwide hard drive shredding through our CyberCrunch mail program. For more information visit [www.cybercrunchrecycling.com](http://www.cybercrunchrecycling.com).

About Commonwealth Computer Recycling

Socially responsible, environmentally sustainable practices, and top of the line service: That's what you get with Commonwealth Computer Recycling, the mid-Atlantic region's leading e-waste and data destruction service provider.

Our team's background in the IT industry gives us the ability to quickly and efficiently recycle your electronics, which means less stress for you and more help for the environment. We know the latest technologies and regulations surrounding data destruction and electronics recycling, so you can rest assured that when you give us your e-waste it's going into a safe set of hands.

We have two locations in Pennsylvania: Greensburg, just outside Pittsburgh, and Aston, just south of Philadelphia. These allow us to service you whether you're in Trenton or Cleveland.
