

GOLF BALL | women

Customer Reviews

"Gotta tell ya, those balls are the BEST!! hit further than I've ever hit...they feel great and they fly!! TRACY C

"Used one of these for the first time yesterday. Nice feel and good distance. And they are simply adorable" Cheri

"Love the packaging, the marketing, the colors and the feel of this ball." Joan D

"These golf balls are absolutely amazing! I've played four rounds with them and they have added 10 to 15 yards to my drives and fairway shots. I have given them to other women who have had similar results. This will be the only ball in my bag - a great gift too for all women golfers!!!!" Lisa M

"I love these balls. Given to me as a gift since I am a Martini fan. I have been a white ball snob, but now am a changed woman. I swear these go further and have a wonderful feel on the putting green. Hate it when I lose one...it happens." Penny W

"Although I normally prefer a white golf ball, I "tested" the Ball Couture golf balls at the request of a friend. After playing a round with this ball, I must say it performed very well - had a nice feel off the clubhead, seemed to roll forever, was easy to see, and felt good on & around the green. This ball is specifically designed for women with slower swing speeds - that would be me! It's a fun ball (with the bright colors and different "couture" items printed on the ball). I decided that, since I liked it so much, I would order a dozen for myself and another dozen to give to a friend. I would recommend it for older women golfers or those who have a slower swing speed. It's fun to play!" Golfnut

"Volvik better watch out! I love these golf balls. I purchased some from my local pro shop and they are always sold out. Now that I know that they are on Amazon, I now have a backup plan. I normally play with Volvik and these balls rank up there with them in my book." Ursula
