W-2C Form Filing: How to Import Employee and W2 data

As an employer, you are required to print W-2 forms for your employees and file w-2 form to government. If you discover an error, you may need to file Forms W-2c (Corrected Wage and Tax Statement) and W-3c (Transmittal of Corrected Wage and Tax Statement) as soon as possible.

Below are the steps on how to import data from .csv file into ezW2Correction software.

Data File for Importing

The data file should be saved as .csv file.

• Download Link

If you need a sample file for testing purpose, you can download it here. You need to unzip it after downloading it.

• How to convert Excel file to .csv file

If your data is saved in Excel file, you can convert it easily by clicking Excel top menu "File", then click "Save As" to save it as .csv (comma delimited) file.

Start W-2c software

You can click ezW2Correction desktop shortcut icon to start ezW2Correction software.

Option 1: Import Previous W2 Data

This function is available inside advance and enterprise versions.

You can click the top menu "Current Company" then click sub menu "Import W2 CSV" button. You can follow the structions to import data.
