ACCURATE WELDING & FABRICATING

Welding and Fabricating Solutions Since 1975

3-Axis Milling Machine New at Accurate

Harrison Township, MI | The availability of a larger 3 axis CNC milling machine, was announced at Accurate Welding & Fabricating today, offering “customers additional capacity to fulfill their needs,” said Vice President, Tom Vertin.

Derek Starks, President, announced the new Vision Wide milling machine with an envelope of 165 inches (4 m) of X axis travel, 90 inches (2.3 m) of Y travel, and 55 inches (1.4 m) of Z travel. What Vertin called a “new resource to our customer base.” Combined with the Hurco 48 x 24 x 24, the Vision Wide will provide added sufficiency to every industrial floor.

With the capability to affix a 4th and 5th axis by attaching the Madaula adjustable angle head, the bigger 3 axis CNC is a fresh inclusion to the already high quality custom welding and fabricating machines already in place.

Please visit them at their website: www accuratewelding.us and see how they continue to provide innovative and value-added solutions to every work force. View some of their recent projects, or call Tom Vertin personally to set up a visit of the facilities. He would love to speak with you.

About Us

In the running for 40 years, Accurate Welding & Fabricating continues to diversify to meet every customer’s needs. As a full service facility, Accurate Welding and Fabricating offers complete welding solutions including TIG welding, MIG welding, and micro TIG welding.

With our fleet of trucks, which can handle loads of up to 40,000 lbs., Accurate Welding and Fabricating offers rapid delivery as an added luxury for our customers. Overnight shipping of smaller tooling is available throughout the continental United States, Canada and Mexico.
