

FOR IMMEDIATE RELEASE  
May 2016

## **NinjaTek Upgrades Website with A New Look, Offering New Data and New Products.**

(Manheim, PA) NinjaTek's newly renovated website design, sets the stage for visitors to gain access to the newest product additions and upgraded online resources. - [www.ninatek.com](http://www.ninatek.com)

The site's modernized, industrial look now showcases the recent add-ons to the NinjaTek product line. Traditional filaments including NinjaTek PLA, ABS, and HIPS are now available online. Partnered with Lulzbot, NinjaTek is now an official reseller of the Lulzbot TAZ and Lulzbot Mini desktop printers.

Escorting the expansion of NinjaTek's product line is a series of revamped online resources. These tools include product comparisons, performance data, technical specifications, a print quality troubleshooting guide, printer setting recommendations and other useful tips and tricks.

The NinjaTek team created this space with the goal of organizing information so that it effectively answers users commonly asked questions. They encourage visitors to continue to reach out with inquiries, so they may continue to optimize materials and better serve the 3D printing community.

Looking ahead NinjaTek will continue to enhance their case study and applications sections as well as a refurbished "In The News" blog, available fall 2016. NinjaTek invites readers to visit their website, and check out their new features at [ninatek.com](http://ninatek.com).

Want to chat in person? The NinjaTek team will be attending Orlando's RAPID 3D conference and expo on Monday May 16<sup>th</sup>. They will be available to answer questions, and are eager to discuss industry topics with other 3D printing enthusiasts. Come visit them at booth 506!
