

FOR RELEASE May 19, 2016

**“*Morning Has Broken*” THE SCREENPLAY WRITTEN BY MATTHEW WILDER OPTIONED FOR A MOTION PICTURE BY LEGACY ENTERTAINMENT PARTNERS, LLC**

**LOS ANGELES, CA-** Legacy Entertainment Partners, LLC is delighted to announce its collaboration with Matthew Wilder to bring *Morning Has Broken* to international film audiences – based on true events, this is the story of a young runaway girl moves in with a seemingly harmless, elderly, Academy Award-winning songwriter. It all seems perfectly normal...until his dark side unleashes a chain reaction of ghastly events. A very darkly comic treatment of an unfortunately very true Hollywood crime saga.

Matthew Wilder is in Cannes right now attending the world premiere of his script *DOG EAT DOG*, directed by the legendary Paul Schrader and starring Nicolas Cage and Willem Dafoe. *DOG* was chosen as the closing night selection of the Directors' Fortnight sidebar at Cannes.

"It is exciting to get to work on *MORNING* with Gena Vazquez and Luis Sinibaldi," Wilder said. "This is a macabre tale based on an anecdote someone told me a few years ago--one that is, horrifyingly, quite true! I think our treatment of this 'true Hollywood story' will really impact people; to quote Pauline Kael about another yarn, 'It's the kind of movie where things turn out so much worse than you imagined that you have to laugh.'"

“*Morning Has Broken*” is shooting on location in New York and Los Angeles in late 2016.
