X-Line

Designed & built by EnduroShield

Offer the best easy clean, low maintenance glass treatment to your clients

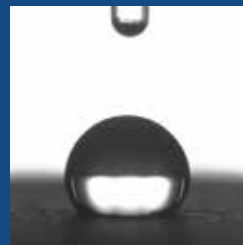

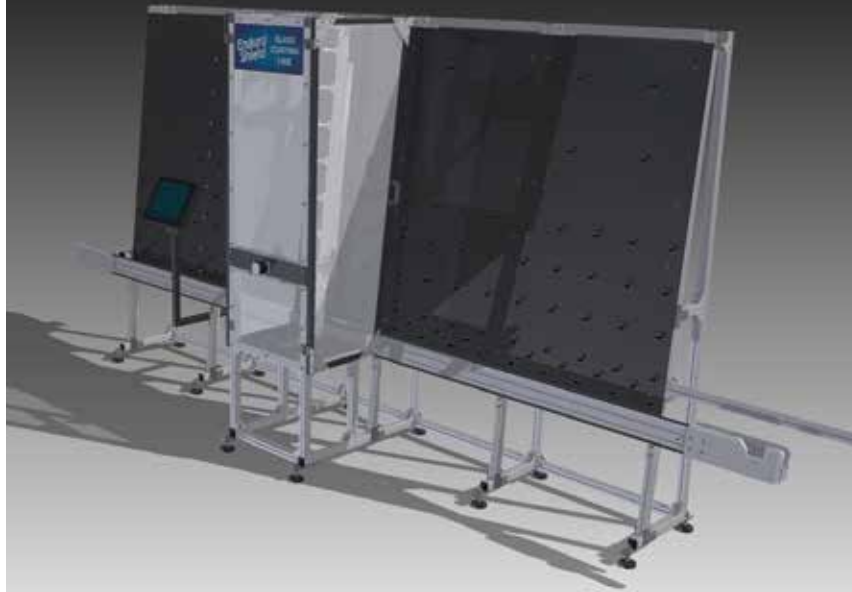

- ✓ Glass stays cleaner for longer
- ✓ Protects against staining and etching
- ✓ Protects against cement slurry during construction

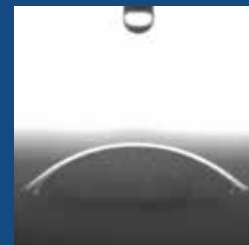

EnduroShield is used by many of the world's leading glass fabricators. It enables them to differentiate from the competition by producing easy clean, low maintenance glass that offers great value to customers, and a value added service that drives increased revenue.

EnduroShield is sprayed onto the glass in factory and is ideal for all glass surfaces including:

- Shower glass
- Pool fencing
- Balustrades
- Windows
- Insulated glass units
- Acid etched glass
- Sandblasted glass

Treated Glass

Untreated Glass

- Vertical system utilises single piece in-line flow for effortless line integration
- High speed
- Simple touch screen control
- Online monitoring of performance metrics
- Machine size is customisable upon request
- Economically priced

* Based on 10 years of simulated normal use and certified by TÜV Rheinland, Germany.
