

hello...

we **simply** unleash your procurement potential

We are procurement experts; delivering intuitive, cost effective, cloud hosted procurement solutions

ProcurePort's experienced team delivers comprehensive implementation support and strategic guidance; allowing our clients to truly adopt our best in class e-procurement platform, set the right priorities, quickly initiate meaningful change and continuously improve their procurement processes.

we're more than just automation

We provide a best in class e-procurement platform, complimented with our industry leading implementation services and support.

what makes us different

priced more competitively than other solutions with amazing benefits for our customers

INTUITIVE

Our solution is extremely user friendly making it simple for your organization to truly adopt it

EASY TO INTEGRATE

Integrating the solution with any third party ERP is incredibly easy using our web APIs

HIGHLY CUSTOMIZABLE

Out of box, our solutions provide robust features and functionality to address any typical procurement process requirement. If that is not enough, our team can further customize based on your requirements

FANATICAL SUPPORT

Our application support team is always available to ensure that your team can get the job done no matter what the situation

mature solutions

Our zero footprint cloud based platform has been proven at the enterprise level since 2001. It is easy to use and easy to integrate with any 3rd party ERP suite; giving you the confidence to know your team has the right tools to get the job done.

SPEND ANALYSIS SOFTWARE + SERVICE

Unlike our competitors, we combine automated solutions with human intellect to give your organization accurate categories, comprehensive data and true visibility into purchasing trends.

STRATEGIC SOURCING SUITE

We empower you to generate cost savings and reduce sourcing cycle time by leveraging our comprehensive e-sourcing toolkit, allowing you to streamline the RFP, RFI and RFQ process, resulting in better supplier agreements.

PROCURE-TO-PAY SUITE

Simplicity is not just a buzz word, it is the way that you achieve user adoption and prevent maverick purchases. We offer a full suite of tools to streamline the entire source-to-pay process, in a format that anyone can learn and everyone will love.

- **SPEND ANALYSIS**

ProcurePort has processed billions in spend, continuously working with global suppliers

- **e-RFX**

Cut your RFI, RFQ and RFP process time by 90% and drive efficiency and cost savings

- **e-AUCTION**

Achieve true market pricing for all purchased goods and services using dynamic negotiation

- **CONTRACT MANAGEMENT**

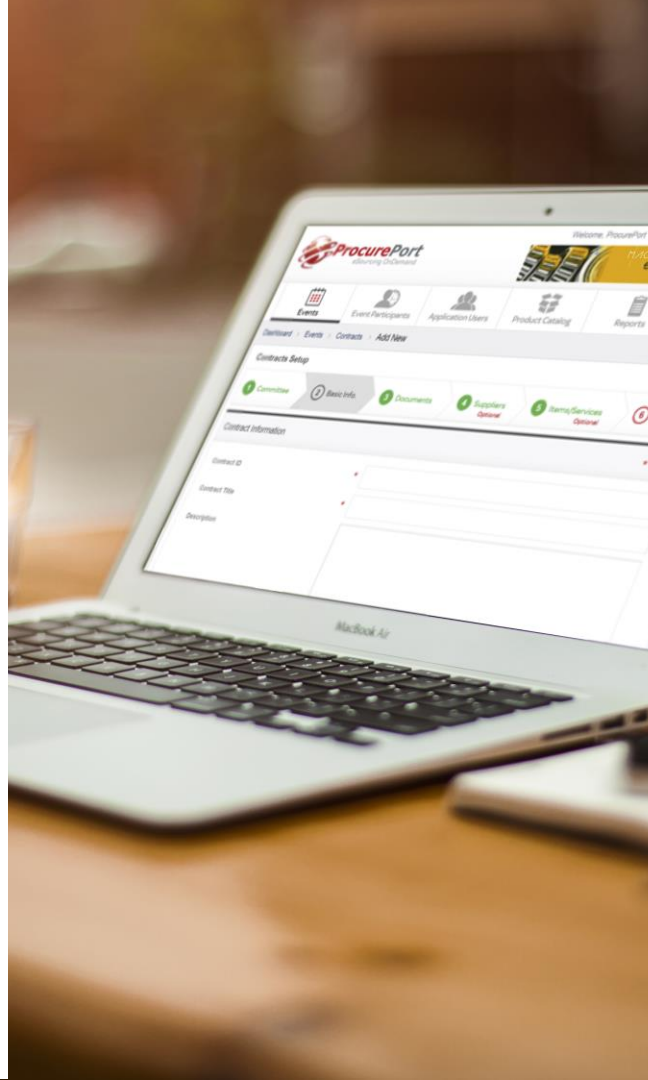

Consistent and proven methodology for online contract and vendor management

- **PROCURE-TO-PAY**

Our customers routinely see a return on their investment within 12 months by automating and optimizing workflow

- **CUSTOM PLATFORMS**

ProcurePort has been developing custom auction software and other e-marketplaces across multiple verticals since 2000

flexible tools

We don't dictate how you work. Our e-procurement modules can be used independently, or in any combination; empowering you to effectively improve the Procurement process within your organization.

ready to integrate with any ERP

Enhance your existing ERP with robust features and functionalities from the ProcurePort suite of products

Our cloud hosted procurement automation modules easily integrate with any popular ERP software

Already have an ERP and need to take advantage of our full featured e-Sourcing or Procure-to-Pay modules?

ProcurePort's expert deployment team can make the process seamless. ProcurePort easily integrates with popular ERP software such as Lawson, Microsoft Dynamics, SAP, Oracle + NetSuite, Intacct and more.

global clients

ProcurePort has a very easy to use and feature rich e-Sourcing suite.

I have used Ariba in the past for our sourcing events, but found ProcurePort to be a competitive product with a very aggressive price point. I would recommend this product to anyone looking to implement e-Sourcing.

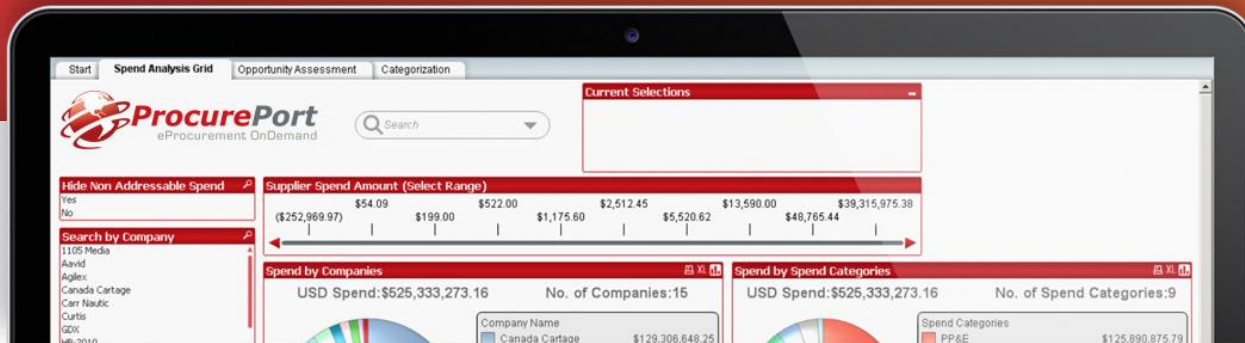

mark schneider

XEROX

—
what our
customers
have to say

spend analysis

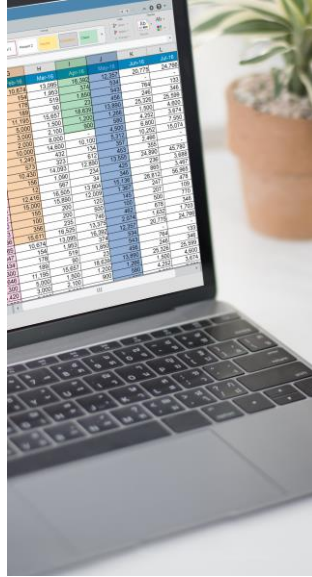

value in clarity

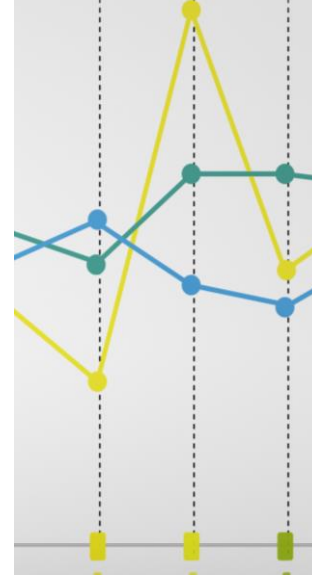

We provide analyses, information, tools, and overall guidance to create improved efficiency and cash-flows across your entire organization.

All at an unbeatable price point...

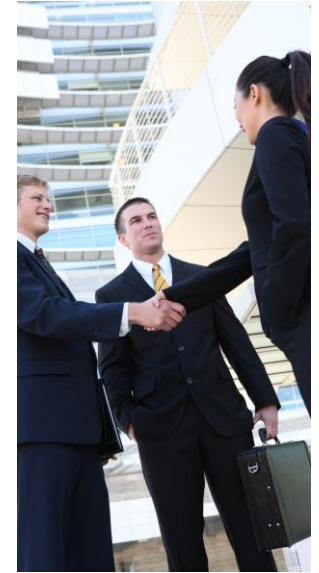

BUILD A BASELINE

Identify purchasing trends, product and service commonalities

GAIN INSIGHTS

Better understand current market conditions, supplier strategies, and potential savings opportunities

CREATE LEVERAGE

Get the information needed to negotiate better terms with your suppliers

DATA GATHERING

ProcurePort accepts data from multiple sources and in any format; providing our clients with a simple path forward. In short, gather your data as you have it and we'll take care of the rest.

DATA AGGREGATION

The next step is to merge all the data files from the various sources into one single file, while ensuring that the original data references are intact. Giving you a single source of truth.

RECORD CLEANSING

Removal of duplicate records, caused by disparate systems, ensures that spend is not counted multiple times during analysis and that you can trust the accuracy of the data.

VENDOR NAME NORMALIZATION

We have industry experts that find issues, like misspelled names that can create unnecessary unique entries, that skew the final analysis results.

VENDOR CATEGORIZATION

Delivering a custom grouping that is specific to your needs; which leads to effective decision making and appropriate final e-Sourcing strategies.

SPEND CUBE GENERATION

The spend cube is the final output of our analysis process. The spend cube allows you to look at all of the analyzed data from a variety of angles.

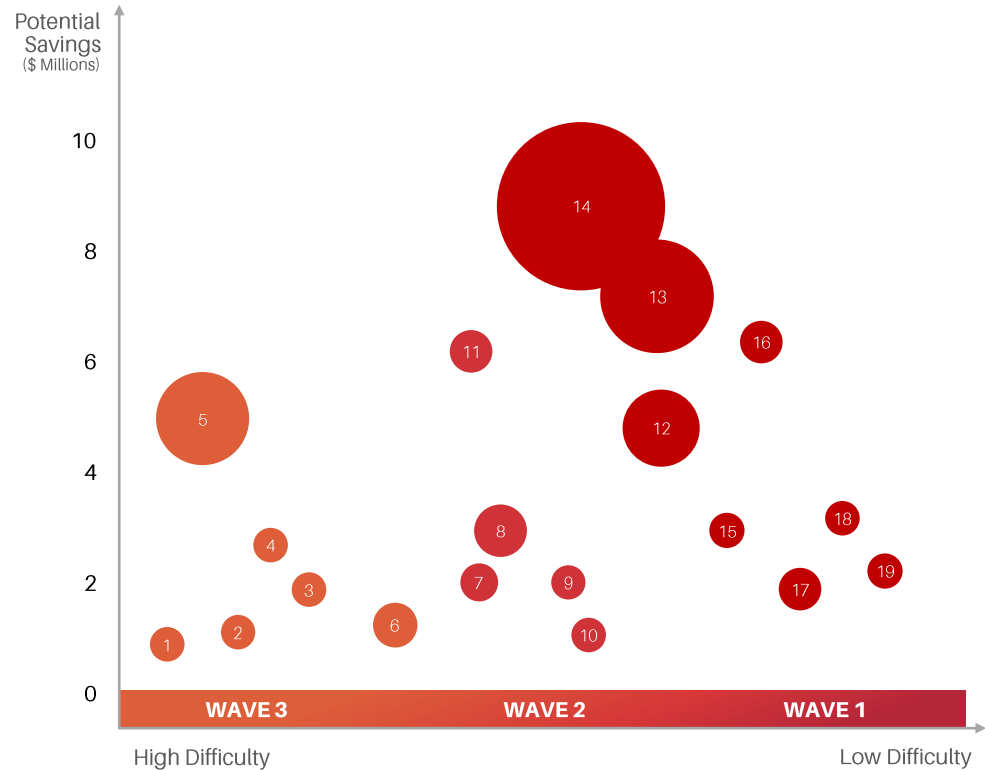

simple process

Have we mentioned how much we like simplicity? Don't worry about the format, quality, or consistency of your data. Just share what you have and our experts will do everything needed to get a clear picture of your organization's spend.

prioritized strategic options

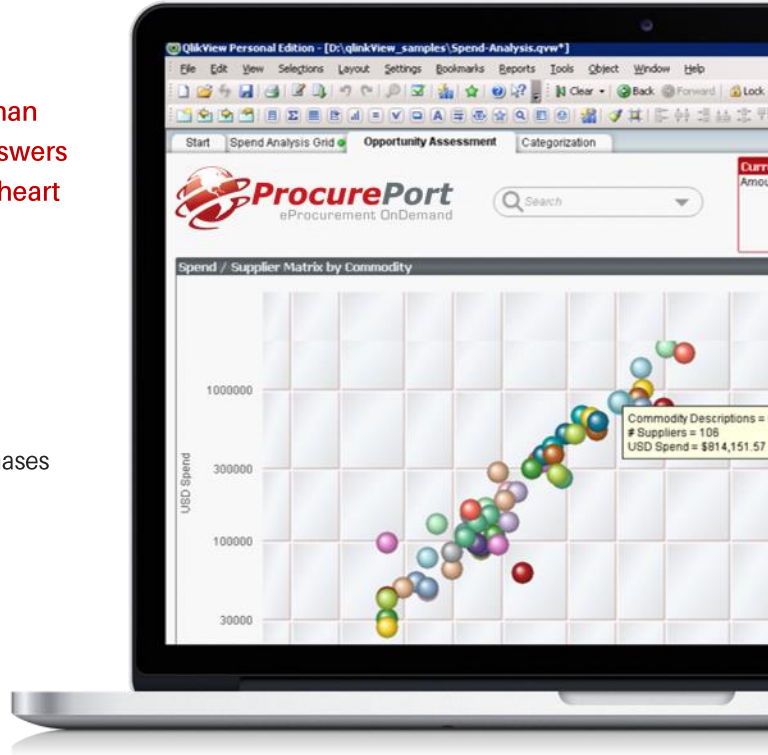

The spend cube prioritizes sourcing categories according to potential savings and ease of implementation, clearly identifying quick wins and long-term goals across your entire supply base.

Note: Size of circle is proportional to total expenditure for each category

As you can see, we provide more than simple automation. We provide answers to critical questions that are at the heart of efficient procurement.

- What am I really spending?
- Whom am I spending it with?
- Where can I aggregate purchases and consolidate suppliers?
- Where are my cost savings opportunities?

delivering
meaningful
answers

We improve spend visibility across the entire supply chain and provide the initial step in the strategic sourcing process.

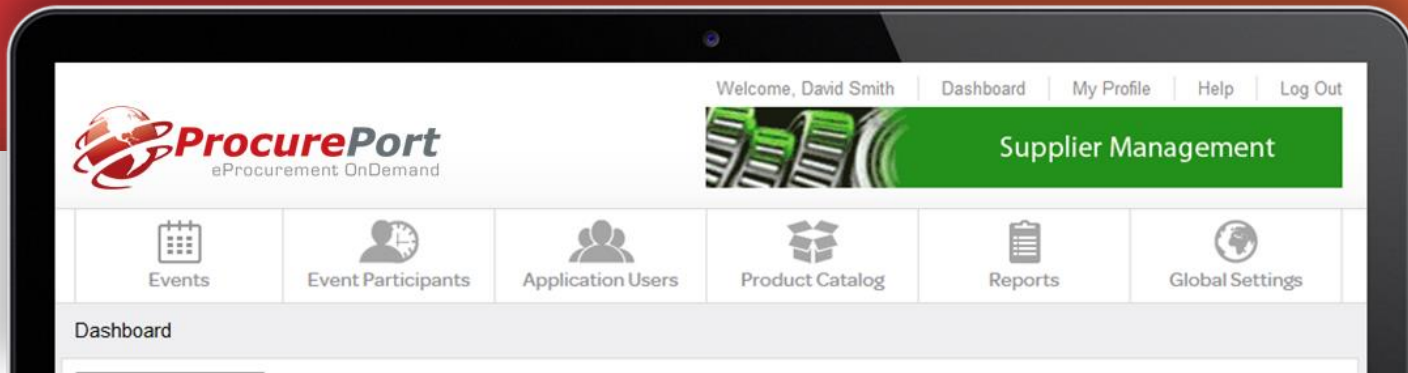

enabling better decisions

ProcurePort's intuitive dashboarding solution will allow you to take the insights gained during the spend analysis process and conduct multiple scenario analysis to optimize your spending.

Dashboards allow for analysis. All key provided to the end that they can usuly identify the h forward for their organization.

strategic sourcing

powerful tools

We provide a combination of user centric, strategic sourcing tools that help organizations generate cost savings.

1

e-RFX TOOLS

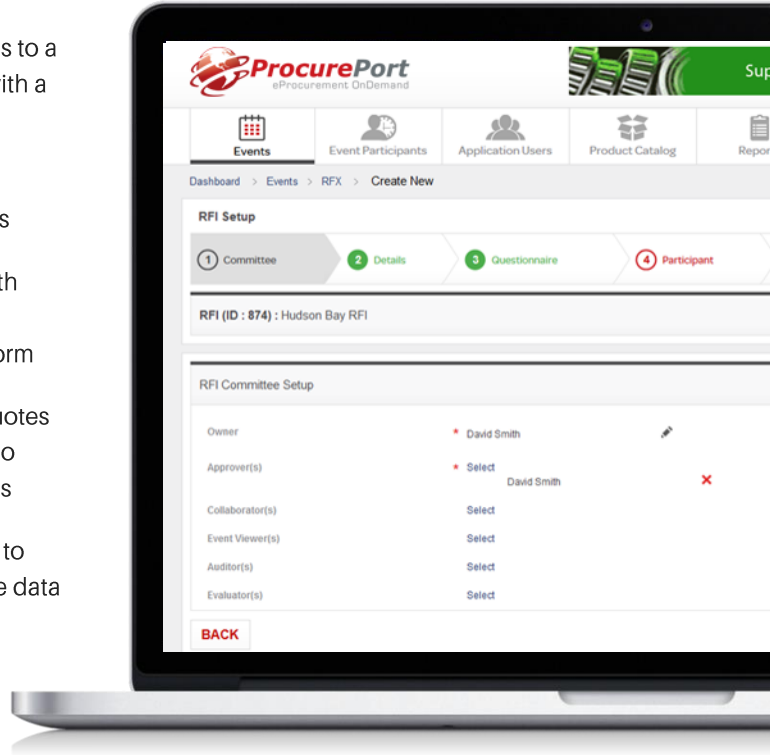

Ditch the paper and email process for "Request for Information/Quote" and "Request for Proposal" and implement a fully automated RFI/RFQ/RFP process that is secure and fully auditable; making each procurement easier

2

e-AUCTION TOOLS

Our cloud hosted reverse auction software is easy-to-use and implement; generating cost savings, while decreasing supplier negotiation times to hours instead of days.

- Create & manage your e-RFX with an intuitive workflow
- Distribute simple to complex RFP's to a few, or a few hundred suppliers with a single click
- Easily collect quotes for a few line items, or a few thousand line items
- Communicate and collaborate with your suppliers using a secure and auditable chat & messaging platform
- Compare supplier responses & quotes side-by-side onscreen, or export to excel document for offline analysis
- Use manual, or automatic scoring to rank supplier responses and make data driven award decisions

easy to collect & qualify

Gathering vendor capabilities can be challenging. Our e-RFX tool takes you step-by-step through the process and enables you to aggregate the data you need in a format that is easy to understand and share.

RFP | RFI | RFQ

MULTILINGUAL | MULTI CURRENCY

complete features

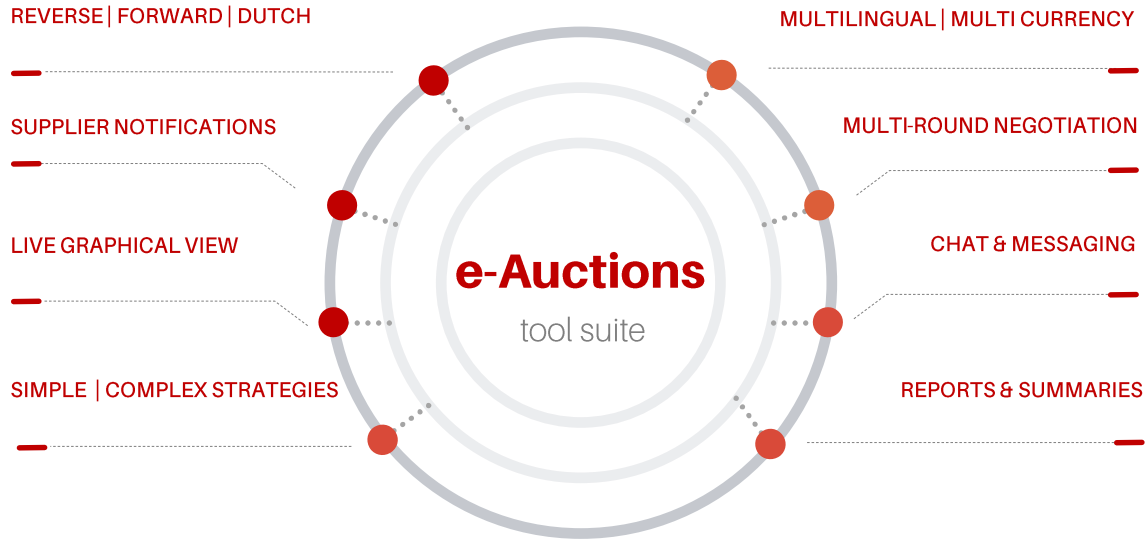

Use ProcurePort to automate the entire sourcing process with a combination of intuitive tools that help you manage spend and drive process efficiencies.

better reverse auctions

Get the support and tools you need to conduct successful reverse auctions for any category of spend.

negotiate quickly & effectively

Whether purchasing goods or services, a few items or a few thousand items, ProcurePort's auction tool can generate significant cost savings and cut supplier negotiation cycle time by 90%.

alex ragone

DONCASTERS-CERTIFIED ALLOY

—
what our
customers
have to say

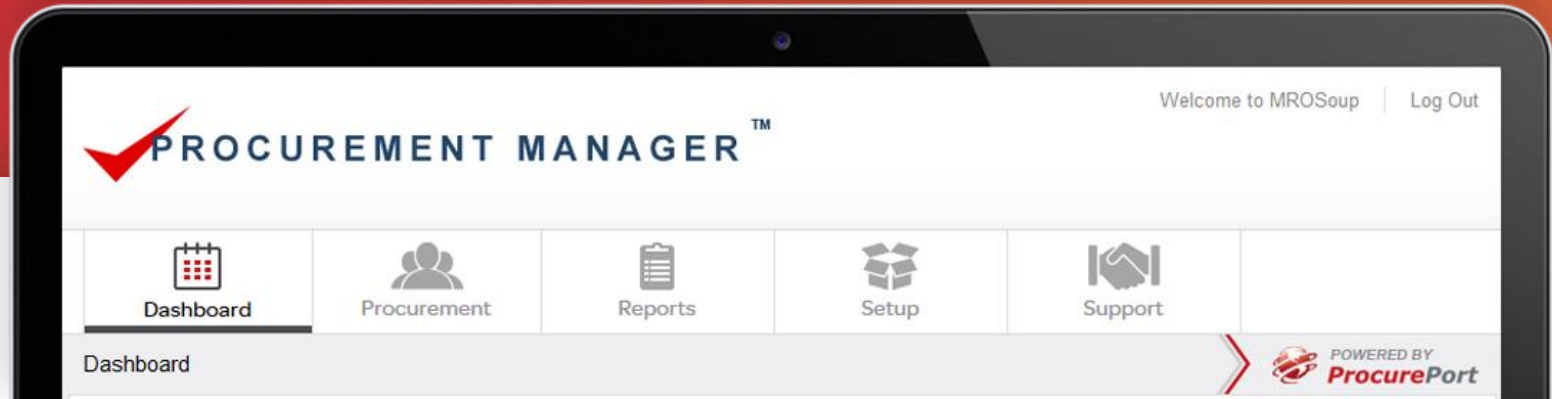

Runs fast and is easy to setup and
publish auctions

Customer support is excellent. I really like the ease of adding participants to events and adding new suppliers is also very easy.

There really isn't much to dislike about it.

procure-to-pay

all electronic – no paper
