Casino Scouts Announces Development Agreement with Lucky Charm Games

Casino Scouts ("CS") is pleased to announce that it has entered into a development agreement with Lucky Charm Games, LLC ("LCG"). LCG will develop the Casino Scouts platform designed to be a public/private cloud based multitenant platform for mobile devices and services.

The CS platform will bring the following innovations to the market:

- Deploy time and location aware offers, promotions, events and experiences
- Support guest service transactions
- Extend frequent new and customizable experiences to both loyalty and acquisition marketing segments

LCG is a developer of state of the art technology. LCG technology allows for the rapid deployment on a multi-functional platform quickly and efficiently with functionality on all platforms.

Stephen A. Crystal, CEO of CS said, "We are very pleased with the development relationship we have created with LCG. We established a comprehensive RFP and evaluation process. In the end LCG was the clear choice on every evaluation criteria."

Sam Calis, the Owner of LCG commented, "We bring our years of experience in platform development, game creation, and IP support all culminate in this exciting Casino Scouts project. It is my view that Casino Scouts will have a unique place in the market with the technology and IP contained in this new platform."

Casino Scouts will begin to test this platform early in 2018 with deployment expected before year end.

Lucky Charm Games, LLC provides state of the art gaming technology and development. LCG creates and licenses certified gaming platforms with experience in Class II & Class III games for real money as well as Social Casino Games across all platforms.
