

Jim Beall is an astrophysicist, poet, and author on issues related to public policy and national defense. He holds the degrees of B.A. , M.S., and Ph.D, all in physics. He is a member of the faculty at St. John's College in Annapolis, Maryland, and a senior consultant to the U.S. Government. His first book, *Hickey, the Days* was published in 1981 by Word Works, and his second book, *Republic* was published by Toad Hall Press in 2010. The Italian translation, *Repubblica*, translated by Sabine Pascarelli was published by Toad Hall Press in 2013. *Onyx Moon* is his third book published by New Academia Press.
