

FOR IMMEDIATE RELEASE

# Potworka changes the way people give or take Micro Jobs with simple payments, instantly.

*Today, after successful private beta testing in Berlin POTWORKA have launched publicly and people can now search, sort, select and complete real micro-jobs for real money, paid instantly and securely through their very own PayPal account.*

Berlin, Germany, January 15, 2018: New Sharing Economy startup [www.potworka.com](http://www.potworka.com) step in with new approach and mission: to make finding work and purchasing services as simple as riding a bicycle. Ultimately it's Customer satisfaction not price, conditions, platform or bells and whistles, and within POTWORKA people can easily create and list paid jobs and tasks as Givers or share their time and skills to complete defined micro-jobs for other people as Takers.

Task and work are posted as micro-jobs referred to as "potwork" along with specific budget Givers are willing to pay for Takers finishing the work satisfactorily. Micro-jobs can be any task or work you can imagine such as as babysitting, yardwork, walking the dog, event support, delivering something, house cleaning, marketing help etc...; It's up to you.

"I purchased services on the top 3 Freelance platforms and got frustrated as a Customer and then noticed problems on the Freelancers side too. In the end my research found bidding wars resulted in lower quality of work for job posters and drop-offs of potential earnings for workers of 20-40% so I created POTWORKA", says Patrik Prepsl, founder.

## **ABOUT POTWORKA:**

Be PAID immediately after each job is confirmed as completed. Giver defines WHAT, WHERE, WHEN, and job BUDGET. Why me: I'm a student, so living on a budget has become the norm for me. More often than not, I find myself in situations where I need to make small cash, and i have the time for it too, but no outlet to realize this requirement. This is why i think potworka is really coming through. It seems easy enough to use and the convenience that comes with Paypal transactions helps with the peace of mind!
