

## **WAVE Plastic Surgery Announces SF Expansion of its World-Renowned Surgery Center**

SAN FRANCISCO, CA, March 27, 2018 – WAVE Plastic Surgery, the largest plastic surgery practice in the US specializing in Asian plastic surgery, announced the opening of a new location featuring a state-of-the-art surgery center in the historic Union Square district of San Francisco on April 2, 2018.

“The decision to expand our presence into San Francisco’s Union Square area was a logical step in our business strategy,” said Dr. Peter Lee, Founder, CEO and Chief Surgeon of WAVE Plastic Surgery. “Since our inception 18 years ago, we have had thousands of patients who would come down to Southern California for our treatments and would comment on the need for this type of specialty in the Bay Area. Asian specific aesthetic treatment truly is a specialty and we believe we can introduce some exciting treatment options that we have solidified in Southern California for our patients here.”

The San Francisco office accommodates the rapid growth of existing and future patients in the Bay Area and supports the practice’s commitment to high-quality care. Conveniently located at 450 Sutter St, near the Powell St. BART Station, WAVE San Francisco will offer both surgical and non-surgical procedures, including but not limited to upper and lower blepharoplasty, DCF rhinoplasty, laser acne treatment, CoolSculpting, Ultherapy, Obalon, breast augmentation, Brazilian butt lift, feminine rejuvenation, botox & fillers, and more.

For more information about the new San Francisco location, visit [www.waveplasticsurgery.com](http://www.waveplasticsurgery.com) or call (877) 769-7766. San Francisco Address: 450 Sutter St, #1918, San Francisco, CA, 94108.

### **About WAVE Plastic Surgery**

Wave Plastic Surgery & Aesthetic Laser Center is the culmination of the vision of Peter G. Lee, MD, FACS, Jonathan Shifren, MD, and Denise Wong, MD, FACS. A strong doctor-patient relationship is the foundation of WAVE Plastic Surgery, with an emphasis on providing the best possible experience before and after surgery, as well as in the operating room. Patient satisfaction is the cornerstone of our practice, and our dedication to high-quality patient care is matched by our commitment to leveraging the latest scientific advancements, innovation, and state-of-the art technology in the field of plastic surgery.

### **About Dr. Peter G. Lee**

Peter Lee, MD, FACS, Founder, CEO and Chief Surgeon of WAVE Plastic Surgery Center and Advanced Endotine Bioskills surgeon educator and trainer, is a top Los Angeles board-certified Plastic, Reconstructive, and Cosmetic Surgeon. Dr. Peter Lee is a board-certified Diplomate of the American Board of Plastic Surgery and Fellow of the American College of Surgeons. Drawing patients from around the world, he is both an innovator and thought leader who has advanced the discipline of plastic surgery through his lifelong commitment to excellence and education. In addition to being bilingual in English and Korean, Dr. Lee has mentored and trained master surgeons in South Korea, China and other Asian countries in state-of-the-art techniques and scientific advancements in the field. With innovative and open techniques as well as a superb attention to detail in cosmetic and reconstructive surgery, Dr. Lee stands as an

internationally acclaimed, award-winning and media recognized physician. His consistently outstanding results in restoring the face and body by creating balance and beauty are what have made him the go-to expert in cosmetic surgery. Dr. Lee places a great deal of emphasis on patient education, compassionate care, and instinctive, artistic, three-dimensional aesthetic surgery approaches.
