April 18, 2018

Adeptec Becomes A SolarWinds Authorized Partner

SEATTLE — April 18, 2018 — Adeptec, a global IT services company, today announced the company has partnered with SolarWinds, a leading provider of powerful and affordable IT management software.

Adeptec is proud to become a SolarWinds Authorized Partner. Adeptec is committed to working with partners like SolarWinds to offer the most comprehensive training and professional services to customers worldwide.

"Becoming a SolarWinds Authorized Partner, together with the other partnerships that we will announce in 2018, demonstrates our commitment to our clients and combines our industry-leading expertise with leading technology solutions for IT management," said Isaiah Carriere, President and CEO of Adeptec.

The selection process to join the SolarWinds Partner Program involved a rigorous audit of Adeptec's professional service offerings, training curriculum, and overall standards of customer care.

"Adeptec's IT management experts meet the requirements of the SolarWinds Certified Professional® program, so they have the technical acumen needed to plan, deploy, customize, and support SolarWinds IT management software," Carriere added.

Over the years, Adeptec has focused on helping organizations adopt tools and best practices for IT management. We provide advisory and training services to help organizations achieve their objectives of strong user adoption and increased return on investment.

"Adeptec's unique strength is our ability to accelerate solution delivery with a combination of industry best practices, comprehensive roadmaps, and a proprietary framework that draws upon our knowledge of how to integrate components," Carriere explained.

SolarWinds® IT management and monitoring software is available immediately along with professional services from Adeptec's team of experts.

Used by more than 250,000 customers—including large enterprises to small businesses, managed service provider (MSPs), government agencies, and educational institutions—in more than 170 countries, SolarWinds products are designed to make IT professionals' jobs easier. They solve a broad range of IT management challenges from on-premises to the cloud, whether those challenges are related to managing networks, servers, applications, storage, virtualization, databases or the cloud.

About SolarWinds

SolarWinds provides powerful and affordable IT management software to customers worldwide, from Fortune 500® enterprises to small businesses, managed service providers (MSPs), government agencies, and educational institutions. We are committed to focusing exclusively on IT, MSP, and DevOps professionals, and strive to eliminate the complexity that our customers have been forced to accept from traditional enterprise software vendors. Regardless of where the IT asset or user sits, SolarWinds delivers products that are easy to find, buy, use, maintain, and scale while providing the power to address key areas of the infrastructure from on-premises to the cloud. This focus and commitment to excellence in end-to-end hybrid IT performance management has established SolarWinds as the worldwide leader in both network management software and MSP solutions, and is driving similar growth across the full spectrum of IT management software. Our solutions are rooted in our deep connection to our user base, which interacts in our THWACK® online community to solve problems, share

technology and best practices, and directly participate in our product development process. Learn more today at www.solarwinds.com.
